Surge Narrows School Spring Concert 2024

The Surge student's spring play, a tale of two islands and the perils of discord and greed, was a poignant story for the current moment. And the story's resolution, that working together to save the forest endangered by the consequences of greed was a very sweet reminder from our local school children of the choices we face. The play was conceived and created by the school children with an assist from Kate.

It was a wonderfully executed performance in the Surge School's traditionally minimalist style. A few props and costumes here and there, backdrops of trees and sky, elf ears, swords, a fishing rod, a wonderful cardboard Viking style boat rowed with oars amidships and carried fore and aft around the room by the taller boys, were fully effective to create the scene.

The words of the theme songs "We are the ones, we are the ones, we've been waiting", and "I raise my arms in the forest to join in simple praise of trees" set the tone.

You 'betcha' kids, you are the ones.

Kate has done a great job with these school productions with much help from local mothers. The kids were joined in the praise of trees by a small group of eight adults who continued singing after the play's conclusion, led by Kate. The overall theme of their songs was hope, resilience and waking up.

With the parents and grandparents of all this year's new kids who come from Quadra once a week it was an overflow crowd. The new SD72 Superintendent, and IT person and the Quadra/Read school principal also attended. The Quadra parents have added major power to the production of school events, with food, help in the kitchen with Sheila's super productions, and overall great energy. The BBQ was manned by Scott Harvey, with everyone's appreciation. Gorgeous bouquets of flowers were everywhere, all from Miray's garden, and the spring's fickle sun was shining.

All in all, it was a vibrant and inspiring day.

Kathy Barnes

Bunkhouse Coordinator Report – June 2024

June was full of fun at Surge! Here are some highlights:

- **The coffee time and chat with Director Robyn Mawhinney was really nice.** From feedback received so far, it sounds like people enjoyed having the opportunity to ask questions and receive updates from her and that we should repeat this again soon.

- **The Bunkhouse facilities were perfect for hosting the lunch for the 85 people that came out to attend the Surge School Theatre performance** and year end celebration. It was great to make use of the big barbeque the Clegg's donated (thanks again Keith and Sara) and it was so great to be able to spread out through the Zone and Bunkhouse patio for seating. The lunch was amazing! Thanks to everyone who brought potluck dishes and thanks to the School Board for donating funds to purchase the food for the barbeque. Thanks as always to the dishwashing and cleanup crew!

- **The live show with Jemma and Robbie was magical!** They said it was the best show of their tour around BC and Alberta because the acoustics were so good and they loved the community spirit and pizza dinner. Thanks to everyone who helped throughout the day to make the event a success: Zephyr and Tom who transported the musicians back and forth to Cortes, my English wwoofers who put in a 12 hour day helping with all the cooking and dishes, the school kids who helped with baking, and Charmaine, my mom and the other regulars who jump in to help with dishes and clean up.

So far there are no events planned for up at the Bunkhouse this summer since the Seaweed Cafe will be kicking into action and providing yummy food and social time for everyone!

Looking ahead:

- I would love to see some live music happening up in the Zone at some point so let me know if you have ideas on performers.
- I will be hosting the July 24 lunch at the Seaweed Cafe and proceeds will be used to fundraise for fall food programs at the Bunkhouse.
- I'd appreciate feedback as to how to organize programs in the fall. Do you prefer a weekly event or is it better to have a special event once a month?

Have a great summer everyone!

- Sheila

Outer Discovery Islands Emergency Preparedness Report - July 2024

Tip of the month

Evacuation Alert: Means pack and prepare to evacuate on short notice. Recommended that those with young children, elders with less mobility, families with livestock should move to a safe location.

Evacuation Order: You are at risk and should leave the area immediately.

If you had to evacuate?

A small informal survey indicated residents would want to stay close by their homes, staying with neighbours if possible. To accommodate this, your local volunteer ESS (Emergency Support Services), supported by SRD, have been planning and procuring. Our supplies now include cots, tents, sleeping bags and pillows, a grab and go first aid kit, cell phone chargers, chilly cloths, pet supplies, and long-life foods for humans, stored in mouse-proof totes.

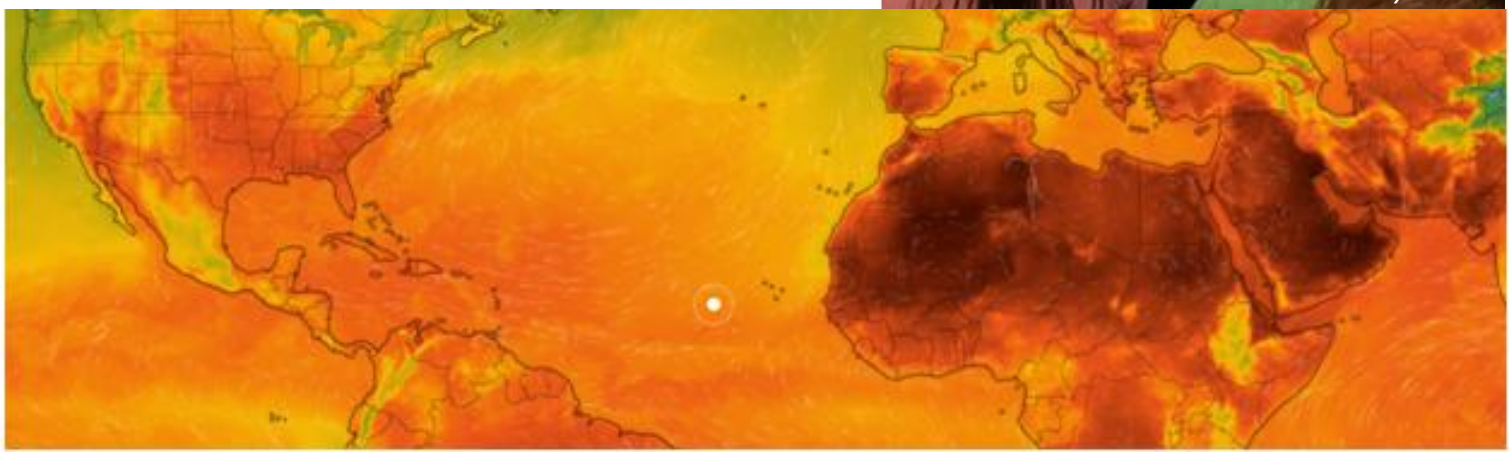
Our (almost) annual fire extinguisher training at Surge School

Designed to give students practice and confidence using fire extinguishers; each with their own emergency scenario, students shot at the base of the "flame" while their partner radioed for assistance. Thank you to co-facilitators Susanne and Johanna.

Photos by Ginny Vassal

Summer weather forecast

We've been in a strong "El Nino" weather pattern, which has meant extreme heat as seen below; luckily, to date, not so for us. Weather experts report the El Nino effect is weakening, they expect by the end of the summer, a turn to cooler and wetter La Nina.

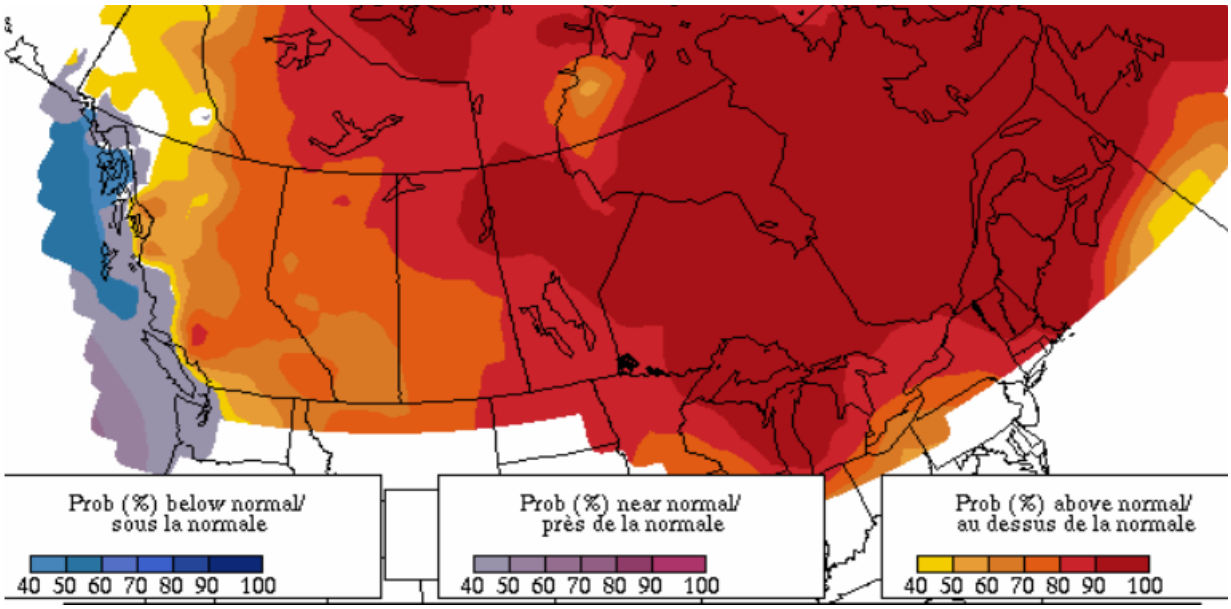


Worldwide Temperatures, windy.com, 9 AM June 24th

What does this mean for us?

Although there is drought in north-east B.C., coupled with aggressive fire behavior, and a warmer than normal interior B.C., we are not impacted by this.

In fact, for July and August 2024, Environment Canada is forecasting with reasonable probability that our area temperaturees will be normal or cooler than normal.



June Environment Canada modelling

As of June 26th, our fire danager rating is low. "Low" means fires may start easily and spread quickly but there will be minimal involvement of deeper fuel layers or larger fuels.. Much of Vancouver Island danger is also rated as low or very low. For reference - one year ago today, June 25, 2023, we were in extreme fire danger.

In the NE of British Columbia, there were 88 holdover fires (the media calls these zombie fires) – fires that smouldered underground over the winter. Fifteen of these have now been put completely out. The Fort Nelson (Parker Lake) fire, caused by trees falling on power lines, over 12,000 hectares burned, the fire is now under control.

Ginny Vassal
For Emergency Preparedness

July 2024 Events Summary

Canada Day BBQ – 3.30 pm July 1st at the Whiterock Light

Yoga with Reiko in the gym - Wednesdays 10.30am to 12.00pm

Seaweed Café - Wednesdays at lunchtime on the Surge Dock, starting July 3rd

Grocery Deliveries to Surge Dock – Alternate Wednesdays, starting July 10th

Mini-Beachfest – July 20th at Lambert's Beach

Canada Day BBQ – July 1st Annual Gathering at the Whiterock Light

Smokies, buns, condiments & BBQ provided.
Everyone welcome!
We'll be set up by 3:30.
Questions or for shuttle from Surge dock:
read_island@hotmail.com

Summer Grocery Schedule: Wednesdays

Starting on July 10th, the Groceries will be delivered on alternate Wednesdays through the summer.

We'll resume Friday deliveries on September 20th.

New shoppers, please contact me for ordering instructions: judithwright_@hotmail.com

WhaleReport App

As pretty much everyone out here is at least an amateur naturalist (if not an expert), I'd like to encourage folks to download and use the **WhaleReport App.**

It's free and easy to use, keeps a record of all your sightings, which is fun to peruse, and most importantly it both **helps commercial vessels avoid whale collisions** AND **contributes to research that helps conserve whales** through a stronger understanding of whale abundance, distribution and habitat use.

Thanks for considering! - Zephyr

Seaweed Café Update

The first weekly Seaweed Café lunch for the season will be on Wednesday, July 3. Join us on the dock for a delicious, home-cooked, reasonably priced meal.

There are still some Wednesdays that require a cook (or a group of cooks) so if you are interested in creating a fun, sociable and appreciated lunch, please get in touch with me at judithwright_@hotmail.com.

With enough support, we could continue into September! - Thanks, Judith

Fire Safety Team Update July 2024

With the cooler, wet weather our fire danger at the time of writing is currently low. However, as we all know, it can change rapidly so it's important that everyone is ready to respond to a fire. Here's a brief checklist:

- Pumps – tested, fueled up, oil checked
- Hoses – rolled the correct way, adapters on ends if required (see below for more information on this)
- Fire Gear Bag (pumps, hoses, attachments, fuel, hand tools, cutting tools) ready to go
- Personal Gear Bag (PPE, VHF radios, water & snacks, headlamp) ready to go
- Plan ready to execute if there is a fire near your property – neighbours contact information close at hand

Hose Deployment Practice

At the beginning of June, a number of us participated a fire practice at Sheila and Rock's house. This proved to be a valuable exercise in which we laid 1800' of hose from the ocean to their house and were able to fine tune our response systems.

One of the key things we learned was that the limiting factor in the response to any fire will likely be hose. We have a number of powerful Stryker pumps available that have the pressure to supply several hose lays. We have scattered around all the properties on our islands over 12,000' of hose. However, only a few residents have more than 300'. Thus, in the event of a fire, we need everyone to show up with their hoses in order that we can have multiple hose lays.

In order for the hose to be rapidly deployed, three things are important: hoses must have the correct fittings, be rolled correctly and be able to withstand the pressure produced by the pump to which they are attached.

The standard fitting for fire hoses in our community is the quarter turn, quick connect fitting – see the picture below. If you hose does not have this fitting, please purchase an adapter. As we learned during our practice, hoses with other fittings are of little use.

For quick deployment, all hoses should be rolled in what is a called a donut roll. To do this, lay out your hose. Then walk one end to the other so the hose is now doubled. Then roll the hose from the mid-point to the ends. Fasten the roll together with an inner tube or rope that you can remove rapidly.

For hoses to be effective with the Stryker pumps, they should be in top condition and rated to at least 250 psi. Please check the condition and rating of your hose.

Windfall Fire Session

On June 24th Jim, Bob and Merlin held a session at Windfall in which they tested fire pumps, demonstrated hose deployment and helped residents plan for their neighbourhood fire-response. By all accounts this was an informative and helpful session and time well-spent. If other neighbourhoods are interesting in hosting a similar session, please contact Jim at jmallis@telus.net.

How long will my stored water last in the event of a fire?

Jim and Charmaine recently conducted some tests to determine flow fate using their pump in order to determine approximately how long the water in various size tanks would last in the event of a fire. With a Honda 200 pump, the nozzle fully open and a 50' hose, water was pumped at 40 gallons/minute. The table below lists how long water can be pumped under these circumstances:

250 Gallon Tank – 6 minutes

500 Gallon Tank – 12 minutes

750 Gallon Tank – 18 minutes

1000 Gallon Tank – 24 minutes

1500 Gallon Tank – 36 minutes

Obviously, these numbers may vary with different pumps, different nozzles settings and different lengths of house, but we hope that this information will inform you regarding how well prepared you are to fight a fire using your immediate water sources.

Wildfire Training Funding Application

We have just heard that we were unsuccessful in our application to receive funding from Natural Resources Canada for Wildfire Training Funding. We learned that the successful applications strongly benefitted Indigenous communities.

The Fire Safety Team

Ron Bohlin's Passing – From David Graham

Hello, everybody on Read Island. It is of great sadness that I have news to share with all.

My great and true friend Ron Bohlin passed away with cancer June 22nd, 2024. He spent only a few days at hospital in Campbell River after having it diagnosed not too long ago.

It has come all too quickly and please respect the family in these days to come . Please think positively of great times we all have spent together with him .

He leaves behind his great son Justin, his wife Rina and Justin's mom Janette .

Brenda's Celebration of Life – by Maya

It was a beautiful, sunny but blustery day on the coast when people from far and wide gathered on Saturday June 22 at Rebecca Spit to remember Brenda Dempsey and to say a final good-bye. The family set up a tent with lots of photos of Brenda and her active life. There was also a book to sign.

Elysia opened up by saying that Brenda was the best mother ever. Roberta Stevenson shared Brenda and her's unique co-parenting style which allowed them both to be off on adventures even when raising children. Other people followed with kayaking stories and all were in agreement that Brenda's life philosophy was: "It is going to be fine!"

I learned that Brenda acquired a goat for a little while after Elysia was born. However, the goat had to go as the milk yield wasn't adequate!

Rieko was reminded that Brenda advised him: "Don't forget to check the oil!"

Brenda's grandchildren closed the sharing and many of us smiled at the picture her grandson conjured when he said how much he loved "cliff jumping with grandma". The granddaughter offered the secret trips to have frozen yoghurt after Brenda picked her up from ballet classes.

The sharing circle concluded with Tai Chi and scattering some of Brenda's ashes in Drew Harbour.

There will be another gathering held in Mexico.

SNCA Board Shorts – June 2024

The Annual SNCA AGM is scheduled for Saturday September 21st 2024 at 10:30am.

Remember that **SNCA membership fees of $25/person** are due before the AGM.

Renee & dood will continue on the board, but **we will need 3 new directors for the next 2 year term** & encourage you to talk with any of the current board if you have an interest in standing.

Barge Landing Update

The road widening is now in the capable hands of our contractor Bromac. His equipment is scheduled to arrive over the long weekend on the barge & the work should start in the first week of July (assuming the barge runs on time). Jackson Boates is in charge of maintaining site safety during work & the road will be closed whilst he is working.

Storytelling Project

Zephyr has archived a large portion of our audio collection with the Campbell River Museum. With help from Kathy and Sally, she is getting close to the end of transcribing interviews done to date and is beginning to choose, compile and editing our community's stories into a written collection. Don't worry - there is lots of time for more stories to be added, and we plan to do more interviews! Old pictures (with dates and names if possible) are also welcome!

Evans Bay Aquaculture Bylaw 1460

Our regional director, Robyn, successfully referred the staff report on Aquaculture Regulation by Local Government that was on the SRD board's agenda Wednesday June 26 to the Electoral Areas Services Committee for further discussion on July 10.Thanks to everyone who took the time to express their concern to her before the SRD board meeting.

The purpose of the report was: To report on correspondence received by the Board in October 2023 concerning aquaculture regulation and Regional District's ability to enforce its bylaws. This pertains to the Evans Bay Island Sea Farm license application to rezone for mussel farming (previously it was oysters) including increasing the number of rafts from 12 to 72. There will be a public meeting after the EASC meeting, likely Wednesday July 17th at the dock now that the Seaweed Cafe is restarting - we will send out a notice via email to confirm the date, time & location.

Official Community Plan

At our meeting with Robyn on June 5 she let us know that the SRD is planning to start up the OCP process this fall. It would be useful for our community to inform themselves of the current bylaws & start meeting to discuss how we would like to see them change. Stay tuned for announcements on meetings to address important topics. Here is a link to the current bylaws: Bylaw 165 Amendment 10 to Bylaw 1460 April 10 2013.pdf

If anyone is interested in taking on organizing these discussions, please talk to a board member.

Many thanks to Sheila for organizing the community meeting & running the coffeehouse. Other topics that were discussed at that meeting include roadwork for Read Island; the results of the solid waste survey & implications for the outer islands (a possible transfer station on Quadra); the aquaculture bylaw mentioned above; & a call for volunteers with a basement for measuring radon emissions.

Wishing everyone a happy Canada Day! - SNCA board - *dood, Renee, Zephyr, Clarke*

Bryn and Lawren's Wedding

- from Tina

We Celebrated the Windfall Way

Lawren and Bryn

With Joy…

as Brenda would Love…

All in Wondrous Ways

Thanks to Joanne and Daryl,

Surge School children with the new bench they helped build! – photo from Susanne

Steve Joyce, Outdoor Education Teacher, receives a 2024 Certificate of Achievement in Teaching

Many of us know Steve Joyce, the teacher who created and leads the wonderful Outdoor Education program at Timberline High School. He brings his students out to our islands annually to experience off-grid living, interact with the elementary school kids, and help out seniors in the area.

His students love the program, and Surge School students and other locals look forward to meeting his students each fall. Congratulations, Steve, on this well-deserved recognition!

For more about Steve's career and achievements, click here: **2024 Recipient Biographies**

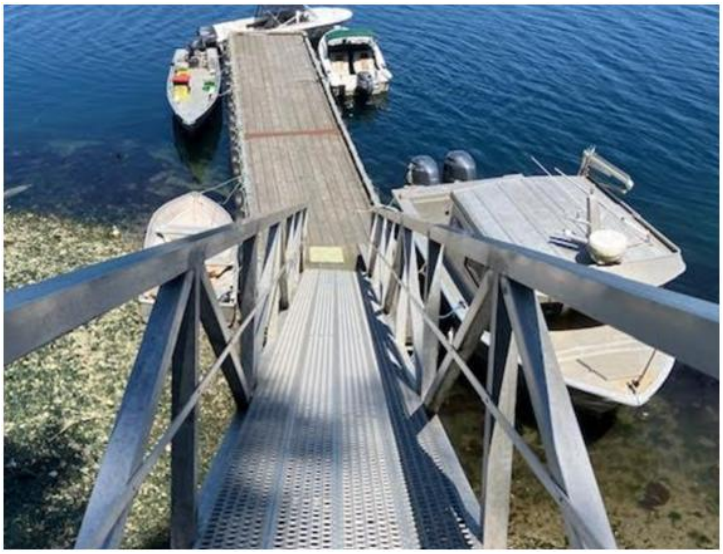
At Hoskyn Channel Landing (End of the road dock) in June

June spring tides:



June 7th, 1 PM

Last weekend I docked our boat at the deep end (west side) of Hoskyn dock, knowing that we were getting very low tides. Someone later moved our boat back to the shallow end of the dock and neglected to tilt up the engine. Our engine was ground into the mud and with the south-east wind that came up later, was being worked into the gravel as the waves rocked the boat back and forth. Fortunately another neighbour spotted the problem and tilted the engine up.

So please, if you have to move someone else's boat, PLEASE check the ropes, bumpers and engine tilt!

Thanks, Neighbours! - Bruce K

A good suggestion from Scott and Renate H. – the extreme tides mean less docking space, it really helps when rafting our boats together to have fenders available on each side of your boat, extra lines, and good cleats along your boat others can tie to.

Recently in the lower parking lot: The vehicle parked on my driver's side had left 4" between us. Getting in required a bushwack through salmonberries to climb in the rear hatch, on my birthday.

I note the enthusiasm of the person who keeps changing the fire hazard inidicator to "high" on the fire hazard indicator sign at the base of the cement driveway to the ocean.

Please stop doing this. Reporting a fire danger different than BC Wildfire and the Quadra Fire Dept sign at Q Cove causes this sign to lose credibility, especially when reporting "high" danger and it's pouring rain out.

Thank you - Ginny

Save the Date: July 20th – Mini Beach Fest at Lambert's Beach

Live music at Lambert's Beach the weekend of July 20th. **Tongue & Groove** (Zephyr's Quadra band) will play Saturday night, and **Good Enough Dave** (and friends?), **The Ukeladies**, and **Joanna Finch** will be performing too. There will be an open stage much of the weekend – other performers welcome!

All are welcome! Please make sure your own rides, food, water and accommodations are looked after and that you take your own garbage back out, and remember that it's a family friendly event.

Are you interested in playing music, selling food, transporting bands, or volunteering to help?

If so, please get in touch with Zephyr or Sheila via Messenger or at our email addresses:
zef_13@hotmail.com and fashedo@hotmail.com
