SURGE CURRENTS

S.N.C.A. Volume 212 September 2024

SURGE NARROWS COMMUNITY ASSOCIATION ANNUAL GENERAL MEETING AGENDA

Saturday, September 21, 2024 10:30am

WELCOME & CALL TO ORDER

REVIEW MINUTES OF AGM OF September 11, 2023 - Motion to approve the minutes

SNCA REPORTS - One motion to approve all reports on completion

Report of the Chair – dood Turner

Treasurer's Report and Financial Statements – Renee Desautels
- Motion to approve the financial statements
- Motion to reappoint accounting firm of Moeller Matthews to prepare 2023/24 tax compliance statements

Other Reports:
- DIEM – Lannie Keller
- Hoskyn Channel (End of the Road Dock and Parking) – Rand Volk
- Surge Narrows Forestry Advisory Committee (SNFAC) – Lannie Keller for Maya Weichelt

- Aging in Home - Sally Davies
- Storytelling – Zephyr Polk
- Bunkhouse Coordinator Project – Sheila Hollanders
- Motion to approve all other reports

ELECTION OF DIRECTORS – Zephyr Polk & Clarke Leggett have completed their 2-year terms
- Director nominations, followed by motion to close nominations
- Vote or acclamation of 3 Directors

NEW BUSINESS

- Woodlot Conversion Project - Ralph Keller

ADJOURNMENT- Motion to adjourn

BBQ Lunch - please bring salads or side dishes to share

Informal Talking Circle

SNCA Board Shorts – September 2024

SNCA AGM is on Saturday 21 September at 1030am in the Zone, followed by potluck bbq lunch - please bring salads & side dishes. SNCA will provide sausages. Informal talking circle after lunch.

Remember that ***SNCA membership fees of $25/person are due before the AGM*** in order to be able to vote at the AGM.

Renee & dood will continue on the board, Clarke is willing to stand for a second term but we will need at least 2 new directors for the next 2 year term & encourage you to talk with any of the current board if you have an interest in standing.

Official Community Plan

There will be a meeting on Sept 4 after the next community lunch at the bunkhouse to discuss the OCP. We anticipate that the SRD will be organizing a meeting to review our bylaws & start the process of creating an OCP early this fall. In order to prepare ourselves, we will look at material from previous meetings to set our priorities then pick the top three issues to discuss. Further meetings will be planned as necessary based on this meeting. It would be helpful if people planning to attend could familiarize themselves with the current bylaws using the following link:
https://srd.ca/wp-content/uploads/2018/09/Bylaw-No.-165-Amendment-No.-10-to-Bylaw-1460-April-10-2013.pdf

Recovery & Resiliency Grant

Sonora Freight Shed

As pictured, the building is now framed in!

Evans Bay Communication Unit

A cell booster & VHF unit similar to the set up at Hoskyn dock is being installed at Evans Bay. The next location to get one will be Owen Bay in the new year. Scott Davidson has kindly volunteered to install the unit again. We would like to take this opportunity to thank him for his previous work that has been so valuable to all of us at the end of the road (Hoskyn) unit.

Photo by Renee Cann

Dock Cart Pilot Project

We have received a lot of positive feedback about the new dock cart at Surge wharf. At low tide, the heavier your load, the better the cart will work, as it relies on friction between the wheels & the ramp. Please be gentle with the throttle action as it takes a moment to kick in & return the cart to the freight shed with the door down when not in use. **Do not use it to haul loads down the ramp**, especially at low tide. If the battery runs out when you are using it, flip the battery switch over (it has two batteries attached I&II) then contact a member of the board or Clarke to get it recharged.

The only negative feedback concerns returning down the ramp with an empty carrier at a steep angle during low tides. We have a solution for this issue & are working on implementing it soon - thanks for your help with figuring out this safety concern. **On a safety note: please always steer from the uphill side of the ramp when taking the cart down.**

Thanks to Dan Lewis & Clarke Leggett for organizing the pilot project. Dan will be spearheading an effort to get a grant to extend this project to other docks.

Future R&R Grant Projects

Installing solar power for the school & bunkhouse is likely to be the next big project with our R&R grant for 2025.

As always we are open to hearing your wish list for community based projects in the coming year. Please contact a board member or email surgenarrows@gmail.com.

Hoskyn Dock Renewal

We received news from Jacob Blanchard at the SRD that the installation of the new elongated dock is now complete. Once there is a confirmed installation schedule, the community/SNCA will be notified. The contractor is expecting installation to take 3 days (that's for on-site work once they've brought the new dock to the Hoskyn landing area).

Wishing you all a fun filled Labour Day weekend & hoping to see you at the AGM, bbq lunch & talking circle on Saturday Sept 21st!

- dood, Zephyr, Clarke & Renee

Fire Safety Team Update - September 2024

With all the rain we have just had our fire danger rating is, at the time of writing, very low. However, while our risk of fire is greatly reduced, we are not out of the woods yet. We are currently entering another spell of hot dry weather and as such we encourage everyone to remain vigilant. Campfires were permitted as of Wednesday 28th August. However, there is a fire ban for Category 2 and 3 fires (open fires).

It is our impression that we are all being much more careful with respect to fire prevention, and this is something that is borne out province wide. The latest numbers from BC Wildfire Service indicate that this year 90% of fires were caused by lightening, 6% were human caused and 4% were undetermined. Contrast this with the statistics from 2023 in which 72% were natural-caused and 25% were human-caused and 3% were undetermined.

This is also the time of year to reflect on whether you might be interested in purchasing additional fire-fighting equipment for the 2025 fire season. Some companies will have fall sales on equipment and so you may be able to pick up a good deal. You can also check out BC Auction at https://www.bcauction.ca/ as this is the place BCWS frequently disposes of their used (but still serviceable) equipment at the end of the season. Click on "Browse for Auction Items" and look under "Tools and Equipment."

In next month's Surge Current, we'll publish information on how to winterize your fire pump so it is are ready to go in the spring. However, if you are a seasonal resident and plan to leave in the next month, please contact Jim at jmallis@telus.net to learn how to best store your pump over the winter.

The Fire Safety Team

Emergency Preparedness Report - September 2024

Outer Discovery Islands Map and Emergency Preparedness Booklet

This local project, 2 years in the works, is now being distributed to all Outer Island residents as well as to BC Wildfire and BCEHS.

What is it? A tool to help you in case of emergency.

The objective of this project is that:
1. you know the emergency number to call;
2. you can direct emergency services to the best dock or helicopter landing site nearby;
3. you know the local medical equipment available; and
4. you have access to other valuable emergency info.

Can you rely on this information? Yes. Every private dock has been included with the specific permission of the owners, and every helicopter landing site has been measured and checked to make sure it complies with helicopter landing site standards.

Thank you to SRD for their significant help on the mapping and for funding the printing costs, to Renate Harvey for making connections with Sonora dock-owners, and to Zephyr for formatting advice.

What to expect with BC Emergency Health Services (BCEHS) response time?

In the recent emergency medical evacuations, there were delays in BCEHS (previously BC Ambulance Services) evacuating the patient. Please see recommendations in the map book how to work with BCEHS to minimize delays. **A few pointers:**

- Call 911 (***unless*** patient subscribes to TEAAMs Aeromedical, ***then*** call TEAAMs at **1-604-229-6757**).
- If you only have VHF radio signal, ask someone to telephone 911 and be your relay.
- 911 has become very sophistocatted; when you call in, they will triangulate your location from your cell, or know your location from your Xplore, or Starlink phone. As the details of the emergency are confirmed, they will seamlessly transfer communication to a local call centre who will monitor the situation and track the resources coming until the evacuation is complete.

Many factors affect response time, including weather, resources available, and how critical the incident is (triage codes include purple as most serious, with a scale of decreasing seriousness red-yellow–orange).

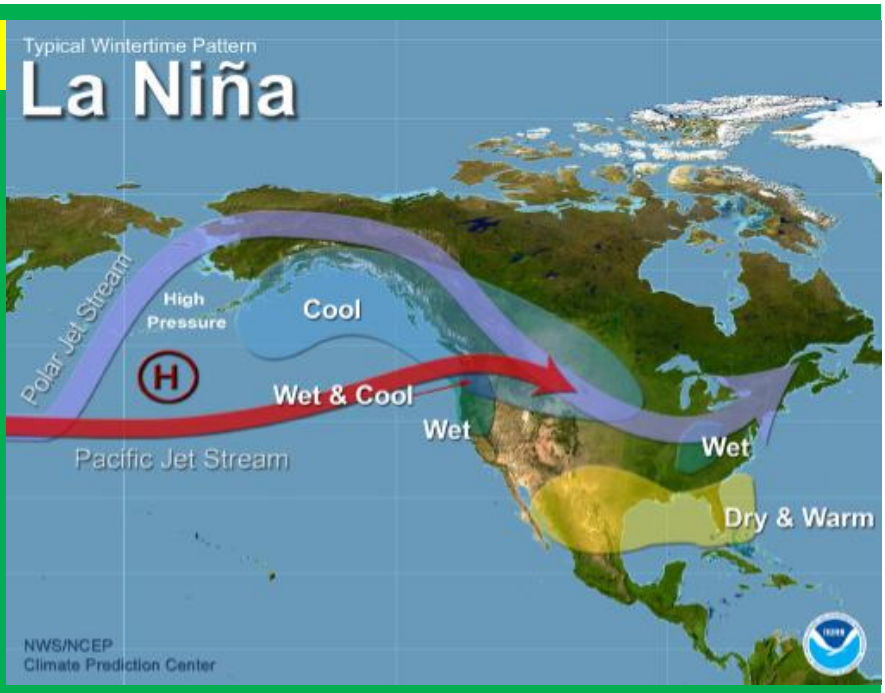
BCEHS helicopter services include Ascent Helicopters out of Parksville normally flying in Bell JetRangers; a temporary service out of Port McNeil staffed by BCEHS paramedics; and in the past they used West Coast Helicopters.

If evacuating by boat, BCEHS can dispatch the Coast Guard or the Way West Medical water taxi.

Our fall – winter weather forecast:

In June we came out of El Nino (warmer than normal) into "ENSO-neutral".

What does this mean? El Nino and Southern Oscillation means periodic fluctuation in sea surface temperature (El Niño) and the air pressure near the surface (Southern Oscillation) across the equatorial Pacific Ocean. The normal trade winds start to resume. Contrast that with El Niño conditions, where the usual winds weaken and an anomalous reverse flow develops.



La Niña is expected to emerge during September-November (66% chance) and persist through this winter (74% chance during November-January). That's normally wetter/stormier and colder weather.

Ginny Vassal
For Emergency Preparedness

Bunkhouse Coordinator Report – June 2024

Thank you! Gratitude to everyone who came to our two fundraising events over the summer which raised just under $1000 for fall and winter community food programs!

Fall programs: I received some input about how folks would like fall programs to run, and as a result the current plan is to gather regularly on Wednesdays in September. I will be offering a light lunch followed by either a community meeting or activity. Thanks in advance to the school kids who will be helping me prepare the lunches and goodies during their cooking class Wednesday mornings.

Plans for October: I am going away for a few weeks in October and am looking for someone to host Bunkhouse events while I'm away. Please get in touch with me if you're interested: it would be great to keep folks gathering regularly (even if it's just for coffee)!

September Bunkhouse Schedule:

- Wednesday 4th: Lunch @12pm, Meeting re: OCP @ 1pm
- Wednesday 11th: Lunch @12pm, "Fish and Fishermen" stories by John Polk @ 1pm *(date may shift)*
- Wednesday 18th: Lunch @12pm, Art @1pm
- Saturday 21st: SNCA AGM @10.30am
- Wednesday 25th: Lunch @12pm, Seed Saving / Food Security @1pm

Let me know if you have an idea for a future event, discussion topic, or activity!

- *Sheila, Bunkhouse Coordinator* ● 250 203 9490 ● fashedo@hotmail.com

Community Lunch Program is Seeking Volunteers on Wednesdays!

The lunches are a lot of fun, but there's lots of work involved and it's much more fun to work together as a team to get it all done!

In exchange for a free lunch, helpers will assist with things like food preparation, dishwashing, set up and clean up.

Volunteering is a great way to meet other community members and to give back to the community!

Let me know if you want to help out!

- *Sheila, Bunkhouse Coordinator* ● 250 203 9490 ● fashedo@hotmail.com

Another Read Island Wedding

When Rosie and Bob's daughter Kelly first visited their newly purchased property back in 2017, she announced that she was going to get married on the beautiful point of land at the front of the property. On August 10th, her wish came true as she married Conrad in the presence of 51 guests and 7 dogs. The weather was magnificent, the whales showed up as required and the party was aided by the fine bar-tending skills of Merlin and Jim. A great event all around!

Grocery Delivery Notes

Our last Wednesday Grocery Delivery will be on September 4. Then we are switching back to a winter schedule - every other Friday. Upcoming dates: Sept 4th, Sept 13th, Sept 27th, Oct 11th, Oct 25th, … etc.

Thanks to the Grocery team, Sally, Kathy and Kim, for keeping us informed and for doing most of the heavy lifting on delivery days. Thanks also to everyone else who pitches in to help with shifting the load from boat to dock, then to the scale and finally into sorted piles.

Save On Foods has been very supportive and the staff have done everything possible to accommodate our group and to give us an excellent shopping and delivery experience. Qaya Way West and their skippers get the groceries to us in even the worst weather and they take care to protect our boxes from physical damage and from hot or wet weather.

Regular users of the grocery service agree that the freight charges we pay are a big saving in time, effort and money compared to trips to town. Please contact Judith if you would like information on how to participate. judithwright_@hotmail.com

Seaweed Café

Another successful summer season for the Seaweed Café on the dock! Great thanks to all the cooks who worked so hard to give us delicious meals around joyfully sociable tables. As usual in this community, many folks pitched in spontaneously, whenever they saw the need, to help with setup, cleanup and any glitches.

Donna and her Posties were always helpful, as well as keeping the dock and freight shed clean, safe and attractive. Surge folks also made visitors and tourists welcome when the seaplanes and tour boats landed or fleets of kayaks paddled in. All this added to the convivial atmosphere.

Congratulations and thanks to everyone who supported the Seaweed and we'll hope to float with you again next summer!

P.s. Cozy community lunches will continue through the cool season in the Bunkhouse with Sheila and friends organizing.

Chief Darren Blaney and Homalco students joining the Surge Community for lunch, August 2024.

Photo by Ginny Vassal

Thank You, Ocean Legacy!

Before and after photos of Grant Island in Owen Bay – the wonderful Ocean Legacy crew came through and cleaned up a huge pile of marine garbage for us! Pickups were also arranged on Read Island. *Photos from Scott Harvey.*

BEFORE

AFTER

Travel Tale 2 – John Polk

Covid was in full bloom.

Friends from Rosarito, Mexico, dropped me off at the Tijuana border.

I hitched my back pack to my back, snapped my belt and shoulder harness and walked bravely to the customs.

Didn't know what to expect – things in California seemed marginal.

No lines? Hmmm, I was thinking.

Was I surprised when I went through the US border with only a smile and nod from the border officials.

The border was almost deserted. The trolley from the border to central San Diego was empty.

The central train station – beautiful Spanish style – high ceiling – hanging lights – had two people in it. Me and a ticket person with a gas mask on.

It was early afternoon. Left my pack in storage and went exploring. Train left at 11 pm.

The huge glass monolith still reflected the antwerp blue skies, but central downtown was deserted – stop and go lights flashed red and green – a science fiction landscape.

I felt as though I was the last person on Terra.

As I headed to the harbour I could see street people camping in the green strip along the coast.

Laughter and the smell of roasting fish attracted me to a fire.

Smiling people there were heaping fresh halibut onto their tin plates.

It was probably the first time they could live an unhassled life in the warm California sunshine.

I was offered a huge hunk of fish. Mexican handshakes and smiles greeted me.

Did I just come from Mexico? (Many were Mexicans). How was it below the border?

Pretty much the same, younger population and people had to work to live.

Walking down harbour I was struck by an amazing feeling.

These people were at peace.
