S.N.C.A. Volume 214 November 2024

Bunkhouse Coordinator Report – November 2024

Hi everyone, hope you're easing into fall smoothly. Big thanks to Shawnai and Sophie who hosted the Community Lunches in October!

Based on feedback **we are changing the Community days to Fridays for the month of November**, with the exception of Wednesday November 20th, which is the Medical Clinic day.

In case you're wondering why it's important to gather: did you know that **researchers are finding that socializing is good for your health?** A 2023 article from Psychology Today highlights some key points:

- *Healthy social connections are increasingly linked to general health and brain health.*
- *Our time socializing may help keep our brains flexible and boost brain resilience.*
- *We should consider prioritizing social connection as a daily brain health intervention.*

Furthermore, in my opinion, these gatherings provide great opportunities for people to discuss community projects and issues in a relaxed non structured setting.

Please get in touch if you have Bunkhouse event ideas for December or the New Year.

- Sheila Hollanders, Bunkhouse Coordinator fashedo@hotmail.com 250-203-9490

November 2024 Events

- Wednesdays in the gym – **Yoga with Reiko** from 10:30 to 12
- Fri Nov 8th - **Coffeehouse** 1-3pm. Hot drinks and fresh baked goodies *(by donation)* followed by **OCP Meeting**
- Friday Nov 15th - **Community Lunch** 12pm *(by donation)* followed by **Surge Revitalization Meeting**
- Wedns Nov 20th - **Coffeehouse** 11-2pm Hot drinks and fresh baked goodies *(by donation)* and **Medical Clinic**
- Fri Nov 29th - **Coffeehouse** 1-3pm. Hot drinks and fresh baked goodies *(by donation)*

Timberline Outdoor Adventure Class's Annual Surge Visit - Oct 2024

"Visiting your community is a big highlight for all of us, and especially for me, as this is the 11th year I have been privileged to share your stories and lives, all of which are inspiring on so many levels. So from all of us at the ODA, a MASSIVE thank you to the whole community for all these years of support and your open hearted welcome. Looking forward to our future visits….and Halloween Parties!" – *Stephen Joyce, ODA Teacher/Leader*

Message from Dr. Hughes to the Surge Community

You may have heard that, unfortunately, our nurse practitioner Monica Dunlop will not be returning to work at Quadra Island Medical Clinic. Although Island Health is trying to recruit new practitioners (and I have been advertising for an additional doctor over the past year) there has been no interest, and for the time being I am working on my own looking after 1500 patients.

I'm not able to take on any new patients, but will make an exception for Monica's previous patients living on Read if they wish to contact our office. We will continue to offer out-reach clinics but frequency may be every 6 weeks over the winter, rather than every month.

As I am sure you understand, because I am working alone now, if I come to Read then the office on Quadra will close for that day.

You can contact us by email or phone call or visit the Quadra Clinic and I am always happy to be flexible with appointments for Islanders, knowing the difficulty travelling across, particularly in bad weather.

If anyone isn't on our email list or needs to change email details, please let the medical clinic know ASAP.

I am away for Christmas 20th to 30th of December, so the office will be closed for that period – please get prescription requests in early!

I would like to pass on my continued thanks for everyone who has kindly offered boat rides to and from Surge over the past few years and the kindness shown to me by the community.

Dr Steve Hughes

Surge Revitalization Meeting – November 15th

The Surge Revitalization Committee would like to meet with the community 1-3pm on Friday Nov 15th at the Bunkhouse. We'll provide a zoom link for those who can't come in person. The purpose of the meeting will be:

- To update the community of where SRD are currently at with this project – new build vs renovation, possible new site, dock configuration, etc.
- To start to develop some firm ideas regarding how we would like to use the new building
- To explore options regarding what to do with the old building if the decision is made not to renovate (likely, but not yet confirmed)

This will be a community meeting, with no members of SRD or the architects in attendance. However, we hope to have a report from SRD on the current status of the project that we can distribute to everyone ahead of time. Prior to the meeting, there will be a light lunch at noon provided by Sheila.

- The Surge Revitalization Committee

Surge Narrows Scholarship Winner
Justin Bohlin

An update from Justin, recent winner of the Surge Narrows Scholarship.

Justin is in his second year at UVIC, currently studying online in the Department of Humanities with the intent of completing a B.A. in history. His future plans include law school, specializing in international law, or alternatively becoming a history teacher.

He currently lives in Campbell River with his mom Jennet, and is working part time at the Campbell River Home Depot. Justin sent us a photo at work on a recent sunny day.

On behalf of the Surge Narrows community and the Surge Narrows School, Justin, we wish you all the best!

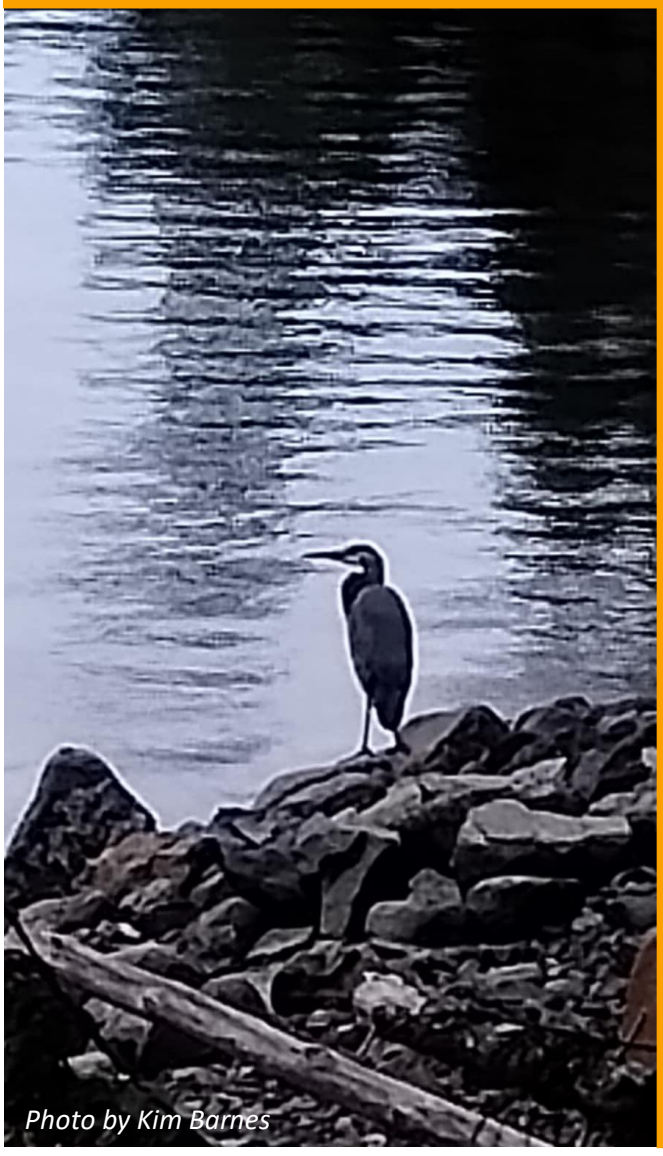

Photo by Kim Barnes

Tell me more about the Surge Narrows Scholarship Fund?

The Surge Narrows scholarship was created in 2015 from community donations; more recently, it's been funded by SNCA. Its aim is to help Surge Narrows students defray the high costs of post-secondary education, books, living away from home, etc. The $500 bursary is for the student to use in whatever way needed.

Terms of the scholarship:

- The student must have attended the Surge Narrows School for at least 3 years.
- The student needs to apply within 18 months of graduating from high school. We ask they send a letter of request to SNCA, attention Scholarship Fund, providing their current contact information and proof of post-secondary enrolment.
- It is important for the student to be honoured by the community, preferably at a community event. However, since often students are away at school, a notice and photo in the Surge Currents may be done instead.

Donations to the scholarship fund are gratefully accepted, donation receipts are issued for gifts of $10 or more.

- Ginny V., for the Scholarship Fund

Fire Safety Debrief and Planning Meeting – Delayed to Early 2025

We previously mentioned that in November we would be hosting a debrief on this year's fire season, but given the number of community meetings currently taking place, we have decided to delay this meeting until the beginning of 2025. Once we have selected a date for this important debrief and planning meeting we'll let you know.

- The Fire Safety Team

SNCA Board Shorts – November 2024

I am pleased that at our inaugural meeting of the new board, Dan Lewis has accepted the position of Vice Chair. He can now be contacted through the SNCA email.

Official Community Plan and Thanksgiving Thank-Yous

Thanks to everyone who came out for the OCP meeting with the SRD & the wonderful Thanksgiving lunch - many thanks to all the volunteers who helped Shawnai & Sophie in the kitchen & with food preparation ahead of time. We would like to acknowledge that the SRD contributed financially & thank ICAN for the chickens they provided.

SRD Staff Aniko, Annie, Keltey and Laura met with locals at the Bunkhouse to inform us about the Official Community Plan (OCP) process. **Please see Judith's OCP report below for more information** (thanks Judith!). The next OCP local discussion meeting will be held on Friday November 8 at 2 pm in the bunkhouse.

Recovery & Resiliency Grant

The next installment of this grant is currently in the process of being transferred to us. Once it has arrived we will start to focus on projects for the current financial year. Installing solar power for the school & bunkhouse is likely to be the next big project. We are trialing an interim solution at the school so that the fridge/freezer can be kept running over the times when the generator is off. Please note this may only be used for school food program supplies & is NOT for personal use.

Renate Harvey will be working on a questionnaire for the community about future project priorities. We will be distributing it later this winter. As always we are open to hearing your wish list for community based projects in the coming year. Please contact a board member or email surgenarrows@gmail.com.

Renewal for Bunkhouse & Newsletter Positions

We are planning to renew Sheila, Clarke & Zephyr's contracts this month based on the positive feedback about the difference their work has made in our community.

Gym Heater

We expect the propane furnace to arrive early in November & hope to have it installed soon.

Dock Carts

We are currently looking for grants to extend the very successful pilot project at Surge Narrows. Dan is in charge of this if you have comments or suggestions.

Timberline Visit

Timberline made their annual visit Oct 21-24. They visited various members of the community during their stay & helped our community by filling the bunkhouse woodshed. Many thanks to all who helped make them welcome as visitors & to Ralph for organizing transport of the rounds of wood from the old mill site on Lot 302 to provide wood for community events.

The Read Island Roads

In October with almost no notice Mainroad sent a barge to the Surge Narrows landing with a grader to grade the road, a huge brusher, a pickup truck with spare fuel & two operators who commute from Heriot Bay daily on a locally owned water taxi. They will be working on the roads straight through until Nov 2nd.

Their plans are to attend to Sundew road (the road up to Clarke & Jen's, Keith, Merlin & Renate's places) as well as the access to the Rosen Lake Group to restore their road access.

Apparently, the grader can also be used for ditching and creating a camber on the roads for runoff, along with restoring the width of the roads. Please direct any comments or complaints to the Corporate Mainroad Hotline and not to the operators who are working with us as best they can.

FYI Dan Lewis is pursuing more information on the details of the Mainroad contract with MOTI in Area C (including Owen Bay, & Rendezvous Island) through a FOI request on the board's behalf.

Hoping that you all had a fun filled Halloween! - *dood, Renate, Dan, Clarke & Renee*

OCP Meeting Report

On October 16, SRD Staff, Aniko, Annie, Keltey and Laura met with locals to inform us about the Official Community Plan (OCP) process and to listen to our ideas. They stressed that the OCP is our visionary document for the future. **It will describe Land Use Designations and then direct writing of the zoning bylaws.**

Within the OCP there can be Local Area Plans - each of our islands can have a specific plan of it's own, as long as it adheres to the general vision of the main document. The Provincial Government Act requires that a number of areas be addressed, (water supply, housing, hazardous sites, public access…etc.), but not necessarily dealt with in the OCP. (Eg. Location of Sand and Gravel sources can be addressed by the simple statement: "There are no significant sources of sand or gravel in the area").

After many meetings and drafts, and after a public hearing, the final OCP will be ratified by the Regional District and the current Bylaw 1460 will be repealed. However, 1460 will remain active until the new zoning bylaws are then drafted and ratified.

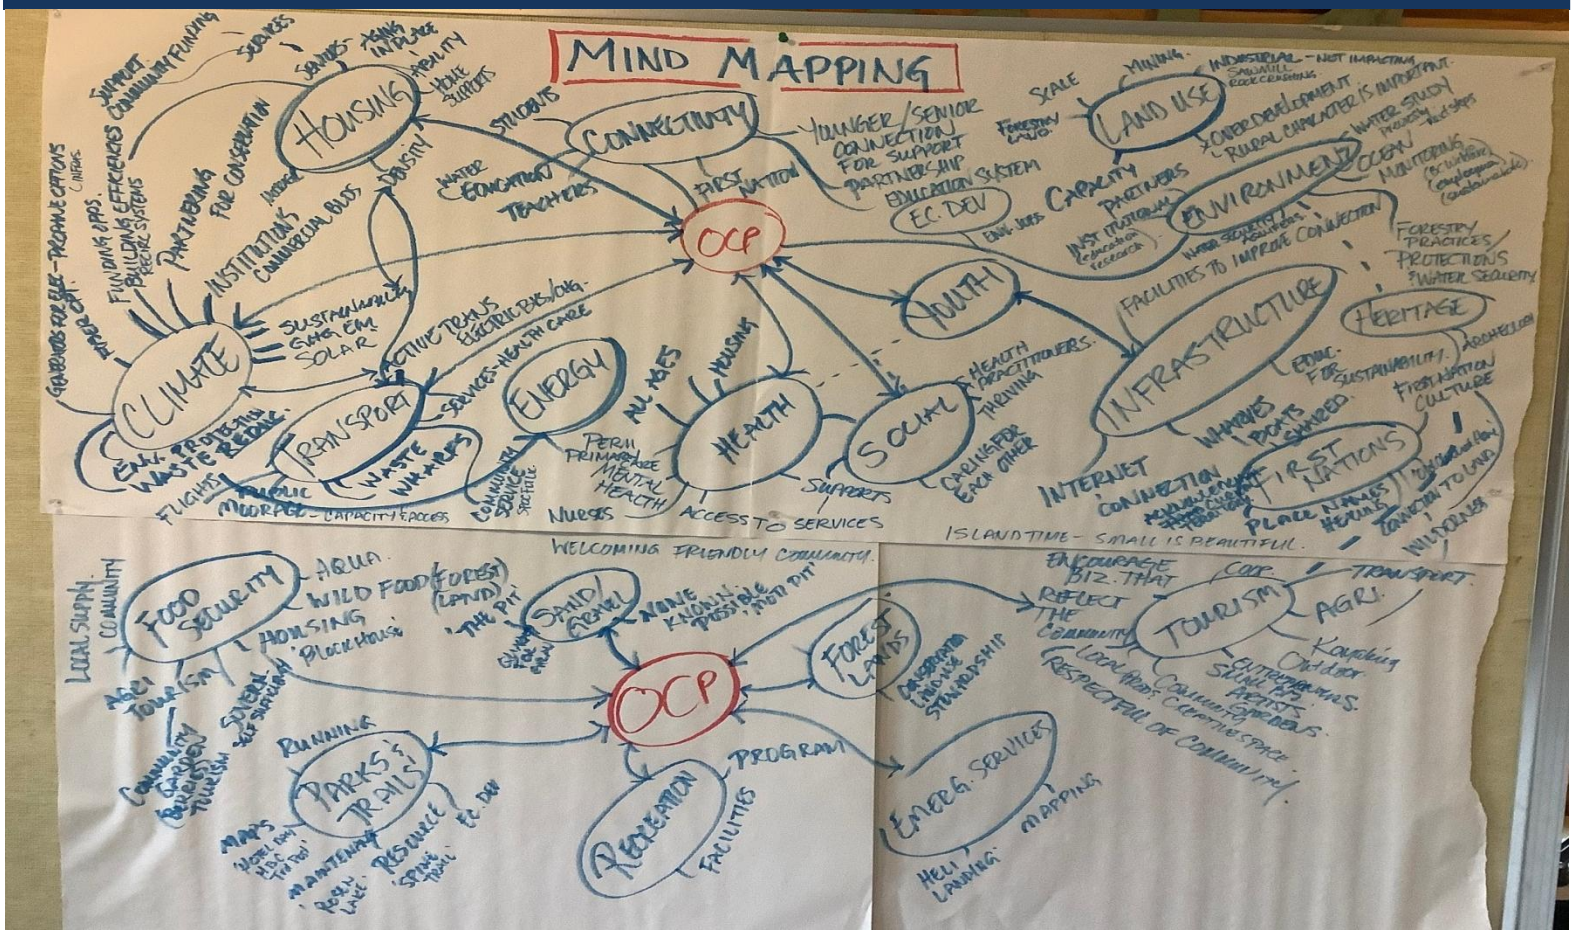
Many good ideas and questions were offered by attendees and will be included in future discussions. Thanks to all who attended and impressed the staff with our community's interest and involvement with the process.

It would be helpful if people planning to attend future meetings could familiarize themselves with the current bylaws & the Cortes OCP using the following links:

https://srd.ca/wp-content/uploads/2018/09/Bylaw-No.-165-Amendment-No.-10-to-Bylaw-1460-April-10-2013.pdf

https://srd.ca/wp-content/uploads/2018/09/Bylaw-No.-139-Adopted.pdf

- Judith



Surge Narrows OCP meeting (excerpt from Director Mawhinney's RD Report)

Area C's Official Community Plan review process was kicked off at the Surge Narrows Bunkhouse on October 16th. Attendance was great, with close to 30 people attending… there was also a community Thanksgiving lunch, which may have contributed to the excellent turnout. Four SRD Planning staff were in attendance, explaining the OCP process, asking big picture questions, taking notes, and mind-mapping the conversation.

Official Community Plans are mandated by the Province to include a response to an array of topics; additional areas can be added as identified by community. Amid the robust conversation on a variety of themes were thoughts on how to increase the full-time community; the need for housing & services for seniors to be clustered; that the benefits of economic development need to accrue back to the community; and that nature is a unifier, it requires residents to be supportive of each other.

Read Island residents have previously organized some independent OCP meetings and brought a draft Principal OCP Aim to the meeting with SRD staff; this aim reads "To support an interdependent & cooperative community that holds high regard for an individual's choice of lifestyle while protecting ecological integrity and maintaining respect for other members of the community". Next step in the process is SRD staff working the community meeting input into a framework to be discussed at a future meeting.

Robyn Mawhinney, *Regional Director for Area C* Strathcona Regional District *Call/text: 250.203.2468*

Emergency Preparedness Report - November 2024

If you call 911 for a medical emergency:

Repeatedly, our experience with emergency medical evacuations shows that having your GPS coordinates makes all the difference in a faster, smoother response.

A reminder to please complete page 1 of the map book (your emergency coordinates, the nearest dock, and nearest helicopter landing site) and post in an easy-to-see place.

If you don't have your GPS coordinates nearby or can't find them, ask 911 to transfer you to Campbell River dispatch; they know where we are, and are a 24/7 service staffed at all times by 2 well-trained officiers. 911 staff have authority to dispatch Coast Guard, helicopter, medical water taxi, or have Quadra Ambulance meet you at an agreed location. Of course this depends on what transport resources are available, and the seriousness of the emergency.

You were asking:

Why are all the coordinates in degrees, minutes, and seconds, when we are moving to digital these days? This format was used at the request of BCEHS and BC Wildfire, confirmed when the project began over 2 years ago. Their equipment converts to decimal if needed.

Did you know?

Wheels for Wellness https://wheelsforwellness.com/ (250) 338-0196 (office hours 9-4 M-F) is a charity providing rides at no charge to non-emergency medical appointments on Vancouver Island. Book 48+ hours in advance for a driver to pick you up at the Campbell River ferry terminal, they will deliver you to your appointment in Campbell River, Courtenay, or Nanaimo. The driver then delivers you back to the Campell River ferry terminal. The patient and 1 escort are permitted, and service dogs if pre-booked. Donations for the service are gratefully accepted, donations of $25 and above receive an income tax receipt.

- Ginny Vassal, for Emergency Preparedness

An Ode to Mothers – by Tina

With Sundays OFF,
the breakfast table stayed cluttered
so time could be with paints

listening to Stewart McClean and
Rex Murphy with Canada beside me

The book by Paul Theroux,
convincing his wife, Chapter 1,

We'll go down the Ganges!!

What Fun!!

Was as near as A Year in Province
by Peter Mayes,

to travel and breathe the menus

Painting takes the place of wine, so
high, with Anne Murray as one with
Eternity

How do people think painting is
taught may have some truth,

to be caught and let go into the
realm of wonder

To be we're dreaming of the Possible
…

while hanging Laundry on the rack

You see the date I'm in the laundry
basket, a quick painting beside a
commode ..this was home in the
plastic Quonset Hut

I could use at night.. Then to claim I
Need Sundays Off…that there was a
light at the end of the weekly
tunnel…

while love waits at the door….

Community Christmas Play???

Is anyone else interested in putting together some kind of performance for the annual Surge School Christmas show? We could put on a play, skit, musical, singing?

We could meet weekly before or during the Coffeehouses - could be a fun way to gather!

The Christmas show is currently planned for Friday December 13th.

Let me know if you have ideas or want to join in on the fun. - Sheila, fashedo@hotmail.com

Population Count of the Outer Islands

How many times have you been asked the population of your island? Or of the Outer Islands? You've likely given your best guess. Or you might have even checked the 2021 census data, and found it counted our full-time population only.

The last time a full count of full time and part time residents was done was winter 2018 – 2019 to apply for Aging in Home funding. So when asked for theis information by TEAAMs as part of their assessing group service possibilities, it seemed time to update our count. Luckily, I had just completed a full count of households in order to know how many Emergency Map books to print. And together with a team of residents knowledgeable about their islands or neighbourhoods, the count was done as at September 2024.

Findings:

- ✓ Full time headcount has stayed consistent over the last 6 years
- ✓ Full time seniors has stayed in the range of 45% of the population; full time non-seniors around 55%.
- ✓ Our part-time population has increased 75%; the increase is mainly non-seniors.
- ✓ Where are many of our part-time residents found? King Islets (Read Island) – 28, Rosen Lake (Read Island) – 17, Elephant Bay (Maurelle Island) - 12, North Rendezvous Island – 17, Sonora/Busby Islands - 49.

For those who like details:

SEPT 2024 OUTER ISLANDS IN TOTAL

These counts exclude absentee landowners and those who might come for at most 1-2 days per year. The resorts on Sonora North and Stuart Island are excluded. *- Ginny Vassal*

Quadra Island Health Hub is Live!

Quadra Island Health Society is pleased to announce the launch of the Quadra Health Hub – one location to find information about health care and supports available in our community. Our hope is this website will help bring a sense of connection, caring and compassion for each other's well-being.

The last four years have brought myriad changes to life on our little island. Many of those changes have taken their toll on the habits of healthy living of our residents. Many of us are less active or feel isolated and wonder what changes or challenges each day may bring. This is something reflected across our province but smaller and more rural populations have been especially hard hit.

It is our hope that through this website we can assist, inform and inspire our neighbours along the journey towards healthier living and to help navigate the new reality and the world of health care.

The Quadra Island Health Society, Quadra Recreation Society and Quadra Circle thank the Quadra Island Foundation for facilitating our grant application and subsequent funding through the COVID Recovery Grant Program. Thanks also to Sarah James for designing our website and to Kathleen Monahan, our project coordinator for content research.

The Quadra Health Hub can be found at: https://quadraislandhealth.ca/

John Polk's Travel Tales 4: "Genovesa"

After 27 days sailing from Panama, we sighted Genovesa (Tower Island) aboard the Hornpipe, a 47" steel sloop.

It's the top of a submerged volcano. From the top view, it looks like a bivalve's siphon.

You enter a small passage into a large round lagoon.

The coast was slightly sloping black pumice.

When we anchored, I grabbed snorkel and mask and drove in.

Visibility was misty.

Out of the murk appeared a very large sand tiger shark.

As I swam towards shore, I met many of his or her kin.

The tigers seemed peaceful.

Upon reaching the shore I noticed a smaller lagoon with an entrance and exit.

The water was clear, so I could see two sharks entering, turning side by side, and clasping.

I'd come upon a honeymoon lagoon!

Along the coast were hundreds of black iguanas hanging out, peacefully staring out to sea.

Occasionally, salt shot out of their nostrils 15 feet up into the air.

When I sat down among them, they all moved to give me space.

Then all their reptilian eyes stared at me.

(It gives one a tingle).

Then, slowly, they looked seaward again.
