Bunkhouse Coordinator Report Feb 2025

The highlight of March events was the Musical Concert organized by Hanneke. It was very special to spend the afternoon after the Community Lunch listening to the many talented community members sharing musical pieces. Thanks to all that helped me prepare the lunch and clean up afterwards.

In April I plan to install some kitchen cabinets as well as set up an event sign for down by the road. Coming up later this spring: Meet and greet with Robyn Mawhinney (her available dates in April didn't work unfortunately) and a live music performance ... Dates TBA! Let me know if you have any requests for events or want help organizing your own event in the Bunkhouse.

- Sheila, Bunkhouse Coordinator

April 2025 Bunkhouse Schedule

- **Friday April 4th** Coffee House **1-3 pm** (goodies and drinks by donation)
- **Wedns April 9th** Surge Medical Clinic and Podiatrist at the Bunkhouse (no public Bunkhouse access)
- **Friday April 11th** Coffee House **1-3 pm** (goodies and drinks by donation)
  Grocery Delivery
- **Friday April 18th** Coffee House **1-3 pm** (goodies and drinks by donation) – Good Friday!
- **Tuesday April 22nd** Community Lunch **1 pm** followed by a presentation with Wilderness International
- **Friday April 25th** NO Community Lunch – Lambert's Beach Cleanup **11 am til 2.30 pm** instead!
  Grocery Delivery
- **Monday April 28th** Federal Election - we assume the Bunkhouse will be a polling station - details TBA

Lamberts Beach Clean Up Earth Day

Friday April 25th
11 am - 2:30pm

In honour of Earth Day, Surge School would like to invite the Community to join us at Lamberts Beach to clean garbage off our beautiful beach. Hope to see you there!

Save the Date for Beachfest 2025 – August 2nd Long Weekend

We have a lot of great music booked! Joanna Finch is coming back with a musical collaboration and will also be offering a sound bath/dance temple on Sunday morning. We have a fantastic dance band from Cumberland coming call Bo Von Blume who will be headlining Saturday night. Also from the Comox Valley is Salt, a duo which "focuses on stripped back arrangement and meaningful lyrics".

Please let us know if you have ideas for more local musicians to invite or are interested in volunteering for this year's event. The big things we need help with are transporting the musicians (can reimburse for fuel) and set up and clean up. We are also looking for an MC.

Sheila, Zephyr, Renate and Leah

Fire Safety Team Update April 2025

A Fire Safety meeting was held in March to review last year's fire season and plan for the upcoming season. A few topics were covered.

SRD Fire Brigade
If you recall, last year, in discussing whether we wanted a formal SRD Fire Brigade, it was decided to go it alone in 2024 and reassess our position at the end of the season. We raised this issue at this month's meeting and after a very short discussion there was unanimous agreement that we should not pursue the option of a formal SRD Fire Brigade but continue to self-organize.

Pump Testing
We agreed to hold another pump-testing day at which community members could bring their pumps to test or use others to learn how to deploy in the case of a fire. This day is tentatively scheduled for the national Wildfire Community Preparedness Day on May 3rd. Details to follow.

Pump Fix-it Day
If your pump needs work, whether it be servicing or repairing, and you'd like some help, please let Jim know (*jmallis@telus.net*). If there are sufficient people interested, we would invite Jay Greenfield over to run a "pump repair and service day."

Contact and Fire Equipment Information
We'd like to make sure the info we collected last year regarding contact information and your fire equipment is up to date. To that end, your neighbourhood coordinators will be contacting you soon (if they haven't already) and asking you to check that the information we have for you is correct. Please respond by April 15th. The plan is to collate and distribute the contact information, so we have an updated "Surge Social" booklet.

New Gear
If you need to purchase any new gear and are unsure what to get, contact Jim.

The Fire Safety Team

Quadra Island
Disaster Preparedness Expo

May 10, 11 am – 3 pm
Location: Quadra Community Centre on West Rd.

Includes preparation steps for an emergency, ham radio and Earthquake response, as well as organizations such as Red Cross, BC Hydro, etc.

SNCA Board Shorts – April 2025

Recovery & Resiliency Grant

SNCA website

Congratulations to Leah who is redesigning the SNCA website. Thanks to those who gave feedback on our Vision/Mission Statement - it will be published on the landing page of the new website in due course. Many thanks to Rockford for getting the ball rolling with the first version of a website.

Bunkhouse Projects

The SNCA Board agreed to proceed with a project to provide energy and heating to the Bunkhouse. Scott Harvey has now brought the necessary solar equipment and a heat pump to the bunkhouse where it is being stored and installation will happen later this spring.

Dock Cart Project

SNCA is expanding the motorized dock cart project! A new dock cart has been delivered to the Owen Bay freight shed - thanks for boating it up Scott Harvey! As it is going to take some time to build a shelter for a cart at the Evans Bay dock we are reconsidering where the second cart might be located and planning to buy another cart later for Evans Bay. Solar charging systems are still under consideration for all locations but we are still seeking someone who can take on this task.

Gym

We are also happy to announce that the gym will be set up with lines for hockey, soccer & pickleball this month, unfortunately, we need to wait for the weather to warm up before the taping can proceed (or the heating to become operational). After school hours students (under. 18) may use the gym under strict adult supervision. No wheeled objects are to be brought into the gym. The heating system is slowly progressing towards completion - the gasfitter, Henry, has hooked the main components up but we are still waiting for a propane fitting to complete the assembly process.

2025 Initiatives

We are in the process of setting up a proper bike rack under the school to keep bikes out of the weather. We are also in the process of creating a notice board at the bottom of the track up to the school entrance for community signs, especially pertaining to events & planning at the bunkhouse. If you have a suggestion please provide the board with a fully costed proposal at least a week ahead of the next board meeting - our April meeting will be Sat 12 April.

Discovery Islands Community Health Centre

Since last year, SNCA has been participating in the planning table for the Discovery Islands Community Health Center (DICHC). This project seeks Ministry of Health funding for a program that aims to connect primary health care providers with community members throughout our area. SNCA has written a letter of endorsement for the DICHC project proposal. We look forward to sharing the outcome of their ongoing efforts to improve our community health care options in the future.

Opposition to Strathcona Gardens

Dood presented the e-petition against raising the property taxes in Area C to cover the cost of building & running the new Strathcona Gardens faculty at the March 26 SRD board meeting. Thanks to those who were able to support her as members of the audience. We did have enough people to fill all the chairs and extra seats had to be brought in for the SRD staff. However, we expect this to be a protracted fight. The board voted to hold the rest of their meeting in camera after the delegations so we were not able to witness the budget negotiations that followed. Next month, a Quadra resident, Mike Gall, has applied to present the paper version of this petition that many of you also signed.

Please use the board e mail surgenarrows@gmail.com to bring local concerns or issues to the board's attention, or to ask questions, rather than our personal email accounts. This allows us to manage our volunteer commitment in a healthier & more professional way. Thanks for your understanding & help with this request.

Wishing you all a happy Easter!

dood, Renate, Dan, Clarke & Renee

Surge Revitalization Project

Things are now starting to move pretty fast in the Surge Revitalization project. A machine was onsite for just over a week in March and did a great job clearing and preparing the site. Thanks to the dozen or so volunteers who showed up and helped empty the green house. All non-burnable contents are bagged and ready to be taken to town on the barge – something that will happen when the main work starts. The building is now gone, and we've heard that that the new building site will be shifted closer to the road, behind the old store as suggested by Rob Wood.

SRD have given Rob's building design to the architects who are incorporating what they can, given the budget. Inside the building there will likely be 2 areas that are fully insulated – the washrooms and the storage area. But they are also considering whether they could put a wood stove in the building. They are concerned that they won't have the budget to use logs in the building and are instead considering using rough-hewn timber. SRD recognize that having wood is important to us but are concerned about fire-smarting. Given this, at this point they are planning for a metal roof and potentially metal cladding on the outside. They are also trying to figure out how big to make the deck outside the building. While bigger is better, there are budget issues.

The dock is being reconfigured to integrate with the new building location. In doing so, they will adjust the design to align better with what was there originally and minimize additional damage to the seafloor. We are hoping that with this reconfiguration SRD will consider some of the concerns regarding the dock that we previously raised. In that regard, Robyn requested a meeting with CAO David Leitch, Aniko Nelson and Jacob Blanchard in order to get an update on SRD's progress and to advocate for our input. However, it was clear from this meeting that there will be no major redesign of the dock and no consideration of connecting it to the current dock .

SRD are very aware that it would be good all-around to hire local contractors for the work. However, at this point, they cannot see how to do this. For budget reasons, one main contract will be issued – the work will not be divided up in a piecemeal fashion. Thus, the work will be offered as one large contract – likely something local contractors will not be interested in. Furthermore, they are required by law to go to a formal bid process. They don't expect any local contractors to have the willingness (or perhaps capacity) to wind their way through all that is required in this process. Given this, they are not sure how to involve local contractors and would welcome any ideas we may have.

Photos by Jim Mallis

The next design we will see from the architects will be much more detailed and hopefully available for comments in a couple of weeks.

Please send any thoughts or comments you might have to the committee at surgerevitalization@gmail.com.

- The Surge Revitalization Committee - Jim, Lannie, Bruce, Rosie, Sheila and Rock

Update and Invite from Surge Narrows Forest Advisory Committee (SNFAC)

SNFAC is busy on several fronts. We continue to build relationship with Homalco council and administrators regarding forest stewardship and other local planning. While we await grant funding decisions, the Ministry of Forests has provided assurance about Woodlot management options and there is pending discussion about WL purchase.

There's active discussion with BC Parks Foundation regarding covenant protection for the community land at DL 302.

Wilderness International (WI) are hopeful that their Read Island land purchase is nearing completion; the last step is bureaucratic, and will remove the area from its current designation as part of Lee Pond's Woodlot tenure. The resulting protected area provides ecosystem connectivity for Read Island's Protected Landscape Network.

An upcoming meeting with Homalco First Nation and Wilderness International is intended to solidify support and interest in the Youth Education Centre, which has been proposed as a collaborative venture with the Surge community. More to come, and there will be lots to talk about if/as this proceeds.

Last but not least: **Please mark your calendars for April 22nd**! Wilderness International will be at Surge to provide updates and new info about local projects. It will be a mid day meeting, and we'll also be celebrating Earth Day! Details will follow and we hope to see you then.

Contact Lannie coastmtn@island.net or 250-850-9787 if you want further information or to participate.
