Bunkhouse Coordinator Report

June was another busy month at Surge with various events and some more upgrades in the Bunkhouse. Here are some highlights:

Ayajuthem Language Day – On June 3rd, we hosted a wonderful gathering which included fun and engaging activities like language teachings and creating roses out of cedar bark.

Guests from Homalco and Klahoose arrived by boat; it was great to see the School, Bunkhouse, and the Zone all being used to host the over 60 people who attended the event! With the help of funds from Homalco and the help of a bunch of volunteers we were able to cater a nice lunch for everyone.

One particular highlight for me personally was at the end when we all gathered in a circle in the Zone and our guests sang the Orca song as we all looked down at our beautiful local nature inspired mandala, which includes the Orca of course!

This was a very special event thanks to teacher Suzanne, who was one of the lead event coordinators. And of course thank you to all my helpers in the kitchen – we had a great crew for the morning prep work and for clean up!

Celebration Lunch/Gratitude Circle for Suzanne - Thanks to everyone who came to this event. The potluck lunch was delicious and the gratitude circle in the Zone afterwards was touching. I'm sure Suzanne appreciated all the wonderful comments, and it was nice for her partner Mary to be a part of the event as well. The kids' songs and community song ended the event very nicely. Thanks to everyone who helped put this event together and especially those folks who set up and cleaned up (especially dishes)!!!

Kitchen Upgrades – Thanks to Steve and Jim, we have even more shelving so we now have more storage space as well as elevated proofing and cooling shelves for baking!

Bunkhouse Summer Plans – The Seaweed Cafe will be up and running each Wednesday, so I am pulling back on Bunkhouse events. However, there are a few tentative plans. One is confirmed for sure:

July 9th - Legal Consultations with Nawel Izard

Nawel will be offering notarization and legal consultations between 1-3pm in the Bunkhouse. Find out more at nawelizard.ca or contact her at nawelizard@gmail.com.

Thanks again to everyone who has been participating in events at Surge and I want to again say a big huge thank you to all the people who help make them a success – the set up and clean up is so much work and the gatherings would not be success without your help!

I'm on vacation for a few weeks in July, but reachable by phone or text if you have ideas for events in August.

- Sheila, Bunkhouse Coordinator

School Recorder Group and the Islands' Community Band and Choir

The recorder group worked hard this year and performed a small musical item at Susanne's 20th year celebration. The highlight was the traditional folk song "The Keel Row" together with the choir and community band consisting of guitars, Irish Flute, Penny whistle and drum. Hopefully there will be many more combined musical performances in the future with the wonderful musicians on the islands.

Let me know if you are interested in joining our little band or choir in the future! *– Hanneke Wilson*

Annual Canada Day Celebration at White Rock Light: July 1st, 3:30 pm

- **Smokies, buns, condiments & BBQ provided.**
- **Bring your own beverage, chair & something to share.**
- **Shuttles are available from Surge dock.**

Reflections from Suzanne's 20th Year of Teaching Celebration

We could not in any way sum up the totality of Suzanne's teaching career here - it would be volumes. But as parents, children and community members took turns speaking around the circle, many consistent themes emerged.

We appreciate her flexibility and ability to react positively and act professionally in every situation that we various divergent humans bring to her, whether it be sporadic attendance or adapting her teaching methods to the individual needs of each child.

We appreciate her calm, patience and reason.

We appreciate her dedication to organizing visits with local First Nations groups, contributing to ongoing and positive relationship building between our communities.

We appreciate the many creative and thoughtful field trips she has facilitated throughout the years, most recently the trip to qathet/Powell River where the children experienced many moments of communion with First Nations groups and also a ton of fun camping and games.

Her time teaching at Surge has benefited every student that passed through, and, as one of her former students shared during the gratitude circle, her support has been a literal lifeline for some of them.

On top of teaching the usual subjects, Suzanne has also filled the student's brains with many weird facts and quirky stories, such as her grandmother using WD-40 on aching knees!

Elder Rob Wood reminded us all that not only is she all that and more, she is carrying with her the long, rich tradition of keeping the Surge School thriving, and she has served longer than any other teacher!

Present Surge School student Arwen would like to add:

"Suzanne, thanks for teaching me and good job surviving 20 years on this crazy island!"

- *Barry Jansen*

SNCA Board Shorts – July 2025

SNCA AGM Meeting on September 20th – Mark your Calendars!
Renee and dood are finishing their terms this year, so we are looking for 2 (or 3) new directors.

Call-out for a Volunteer Day to Chop Firewood Rounds
Because of ongoing FireSmarting around the school and bunkhouse, there are rounds waiting to be split. We propose a volunteer work party soon. Clarke is volunteering his log splitter so it should go pretty fast.

Emergency Power-Pack at the Bunkhouse
Thanks to Shaun Koopman from the SRD, we now have a power pack for the Starlink dish. This means that in an emergency situation we now have portable internet. Contact Dood or Clarke if you want to know how it works.

The New Hoodies are in at the Post Office!
The new hoodies (with Zephyr's Lot 302 design plus an acknowledgement that we are on the traditional territory of the Homalco) are for sale at the Post Office for $75 each! There are a small number of larger sizes.

SNCA Website
Remember to check out the new website and events calendar at snca.ca!

Recovery & Resiliency Grant

Bunkhouse Projects
The power installation is up and running! Scott and Clarke installed the new power system and heat pump at the Bunkhouse. Currently it's only being charged by the school generator, but we're hoping to put the solar system in place next month.

2025 Initiatives
If you have a suggestion, please provide the board with a fully costed proposal at least a week ahead of the next board meeting - our next meeting will be Sat July 12th.

Please remember to pay your SNCA Membership for the 2024-2025 year!
Our membership is down; a gentle reminder that if you receive this newsletter, you're supposed to pay the membership fee. Please send $25 dollars to surgenarrows@gmail.com if you haven't done so this year.

SNCA Board Communication Request
Please use the board e-mail, surgenarrows@gmail.com, to bring local concerns or issues to the board's attention, or to ask questions, rather than our personal email accounts. This allows us to manage our volunteer commitment in a healthier and more professional way. Thanks for your understanding and help with this request.

Fire Safety Team Update - July 2025

Despite the current fire danger being low, we have just had our first fire on Read Island. It was in the Park, just south of King Islets.

Coastal Fire Centre crews were called out to Read around 2 pm on Wednesday, June 18th, after smoke was seen coming from the island. The fire was confirmed by the caller with 100% certainty as a lightning-caused ignition. This was likely the first lightning caused fire of the year in the Coastal Fire Centre. One initial attack crew and one helicopter attended the fire, and it was declared out by 5 pm that day.

We do not know who called this in. Undoubtedly, quick reporting to BCWS was key in facilitating a rapid BCWS response. However, once BCWS has been contacted we would ask that you connect with a member of the Fire Safety Team so that, if required, we can provide an initial attack prior to BCWS deploying. As a reminder, please follow the steps outlined below if you see smoke/flames in the distance.

Contact BC Wildfire:

- *5555 (cellphone) or 1-800-663-5555 (Starlink / Xplore phone), or
- Report via the BC Wildfire App
- You can also call 9-1-1 to report a wildfire. 911 can triangulate your location and will call back if your call drops. However, BC Wildfire believes there are fewer delays if you contact them directly as outlined above.

Then, contact the Community Fire Team:

- **Jim Mallis**: Cell 250-878-1073, VHF Channel 12 Explorer, jmallis@telus.net
  If no answer from Jim, contact:
- **Ralph Keller**: Cell 250-850-9787, VHF Channel 12 Winch Bay or Coast Mountain, coastmtn2@gmail.com
  If no answer from Ralph, contact:
- **Rosie Steeves**: Cell 604-649-0927, rosie@executiveworks.org

BC Wildfire will ask you about the following:

- Location i.e. Where is the fire? Terrain / hillside?
- Size e.g. Size of a house? Football field?
- How quickly is the fire spreading?
- What is burning? Grass, bushes, trees?
- What colour is the smoke? Can you see flames?
- Weather information: Winds? Is it raining?
  Is it sunny/hot/dry, or is there poor visibility?
- Danger: Any people or buildings at risk?
- Action status: Is anyone fighting the fire?

In the meantime, as we head into summer, we encourage you to be as prepared as possible for warmer, drier days. Make sure your property is FireSmarted, gutters are cleared and pumps are tested, fueled and ready to go.

- The Fire Safety Team

Surge Revitalization Update

We have just received the following update from SRD regarding the Surge Revitalization project.

The updated drawings for both the building and marine structures continue to lag behind schedule as SRD works to refine them. The drawings will be shared on their website, and we'll let you know when they are posted. We have asked that we review these drawings before they are finalized and that a local dock builder review the proposed marine facilities before it goes to tender for construction.

They've narrowed down the proposed well location and will be retaining a drilling contractor to complete the well and pump testing (if required) towards the end of summer. They are working to finalize the septic layout and will be working with a Quadra based contractor to install the system towards the end of summer as well.

As for permitting, they've recently received a notice of final review from the province for the expanded tenure area (water lot) to accommodate the marine infrastructure. The NFR is the final step before receiving a License of Occupation. They continue working on other regulatory/permitting requirements e.g. DFO and Transport Canada for construction of the marine facilities, and VIHA for drinking water and septic system.

They're still trying to initiate the archaeological review of the beach and foreshore. In the fall, they are planning more clean-up work, including removal of garbage/debris on the sea floor.

- Surge Revitalization Committee - Jim, Lannie, Bruce, Rosie, Sheila, Rock

Read Island Beach Fest!
Save the Date – August 2nd, 2025

We are excited to be hosting a fabulous funk band from Cumberland to headline this year! They are called **Bo Von Blume** and they play all original music: funk, disco, soul and have a three piece horn section. They play at lots of festivals and call themselves “funny and silly”, so we should have a fun night with them!

Like last year, we plan to host a number of opening performances. We have one duo coming for sure, also from Vancouver Island, called **Salt**. Rhea and Anthony “focus on stripped back arrangements and meaningful lyrics … creating art together”. Joanna Finch is returning with some friends in a new group called **Mama’Sikai** that will offer a “jazzy/dance concert”. They will also offer a soundbath/soundscape performance, likely Sunday morning.

If you or a friend is interested in performing in the open mic portions of the event, please contact Sheila. We are happy that Stephen Stubley will be helping us with sound this year!

Please do let us know if you’d like to join us on the organizing crew! Like always, we will be looking for volunteers to help with things as we get closer to the date and with usual tasks like selling tickets, dealing with recycling etc.

- Sheila, Zephyr, Renate and Leah
(*Primary contact is Sheila: fashedo@hotmail.com*)

Food at Beach Fest – Order Ahead!

Leah is offering a selection of meals at Beach Fest 2025, with menu items available mainly by pre-order. You can view the menu and place your order by visiting:

beachfestfood.com

Hot dogs, smokies, and a variety of drinks will also be available at the event.

For full details and to pre-order your meal, please visit the website above.

See you at Beachfest!

OrchidWeb Studio

New Order of Surge Hoodies available at the Post Office!

They are priced at $75 each. They sport the same "Surge Narrows Fish and Forest Reserve" logo, but in new colours and sizes and with a land acknowledgment.

Tiny Home Retreats

Do you have visitors coming for an extended stay this summer and need some extra space? Consider offering them a unique stay in a custom built tiny home!

Fully set up with power, propane stove, fridge, hot shower, running water and internet (if desired), the tiny home is built from locally milled lumber and is located on the south end of Read Island. From the tiny home, it is a 30 min walk to Read Island Provincial Park and a 10 min walk to the ocean (Burdwood Bay).

Please get in touch with us if you're interested and want more information!

Field Trip to qathet/Powell River

We had a wonderful time visiting qathet. We were welcomed by a Tla'amin elder who was raised in Churchhouse, as well as by some educators, on our first day, with drumming and songs by the water. We learned a lot about the importance of gathering in a circle and about the 3 Sister Nations (Tla'amin, Kahoose and Homalco) and their relationship with lands in our area.

We stayed at a campground right on the beach, went mini golfing, played beach volleyball, and rode mountain bikes. Another highlight was the historical walking tour which taught us a lot about the colonial as well as the Indigenous history of the city.

We were also invited to the Tla'amin Nation and Drew Blaney told us a lot about their history, including how the 3 Sister Nations used to meet and gather in Surge Narrows in Whiterock Pass.

Overall, we were impressed with how clean and tidy the town was and how Indigenous history and knowledge is so recognized and at the forefront everywhere.

We had an amazing time and felt grateful for the opportunity for the parents and kids - we were a group of 25 - to connect and explore a new area.

Xwemalhkwu Return to Church House

At a winter meeting with Homalco Council, Ralph and I heard more about their intentions for revitalizing the Church House village site and we were invited to celebrate the new dock that is first phase of construction. Representing Surge Community, we attended that event on June 19th. About 100 people were gathered on the large new dock for a ceremony that included many recollections and funny-happy stories about the community at Church House, where Homalco lived until the last people left in the early 1980's.

The Homalco are focused on reconnecting to this place as a foundation for healing and community building. Next plans are for construction of a healing centre for Homalco and Sister Nation communities to address addiction and other health issues related to the traumas of residential school. The many residential school survivors present were honored in an intimate blanketing ceremony accompanied by drumming, singing, and dancing.

The healing centre will focus on trauma-informed healing, addiction recovery, cultural revitalization, land based healing, intergenerational support and community strengthening. Plans and funding for the healing centre are in progress. I was able to say a few words expressing our community support for these objectives.

There will be a future opportunity for Surge Community visit to the Church House site... it's beautiful! See more info in link below:
