S.N.C.A. Volume 229 February 2026

## Bunkhouse Coordinator Report

Hi everyone! The bonus of our mild weather was that the weather hasn't stopped folks from gathering at the Bunkhouse. We hosted a series of Coffeehouses to help pass the grey days. In February, I'm excited to add switch it up a bit and add a weekly music jam to Coffeehouse events!

**Coffeehouse and Sing Along Jam:** Stefan will be joining me to host a weekly Sing Along Jam. Bring your own instrument or just sing along. All instruments and levels of musicality welcome! We will have a selection of music (chords) to play along with; bring your own if you have some. Unless otherwise noted, Coffeehouses will start at 1 pm with the Singalongs following at 2 pm. Coffeehouse folks are welcome to hang out while music is happening!

**Coming up this Spring:** I received at $450 grant from Quadra Island Community Foundation to help fund a music concert and lunch this spring so keep an eye out for more information on that next month. Let me know if you have concert ideas or other event ideas (like workshops or films).

*- Sheila, Bunkhouse Coordinator* *fashedo@hotmail.com* *250-203-9490*

## Save the Date!
## Beachfest 2026
## July 10th to 12th Weekend

***Zonnis* and their full band *The Afterparty* will be headlining on Saturday night (July 11th).**

**More details to come!**

# February 2026 Community Events Schedule

**Reminder: Check snca.ca for the most up-to-date Calendar, and keep an eye on the Surge Facebook page and Community Notices for pop-up events!**

- **Wednesday Feb 4th**
  Coffeehouse: 1 pm
  Sing Along Jam: 2 pm
- **Wednesday Feb 11th**
  Coffeehouse: 1 pm Valentine's Day Themed!
  Sing Along Jam: 2 pm
- **Friday Feb 13th** — Grocery Delivery
- **Wednesday Feb 18th**
  Read Island Co-op AGM: Morning
  Community Lunch: 12 pm
  Community OCP Meeting on Housing: 1 pm
  Coffeehouse and Sing Along Jam: 2:30/3 pm
- **Friday Feb 27th** — Grocery Delivery
- **Wednesday Feb 25th**
  Coffeehouse: 11 am
  Sing Along Jam: 2 pm
  Surge Medical Clinic

## Reminder: Health Connect Registry

For anyone looking for a new doctor due to Dr. Hughes' retirement, a reminder that you should register at hcr.healthlinkbc.ca to get on the list for a new physician.

# Jan14 Update: Revised Schedule for Surge Narrows Approach Works

Since the January 5 update, the project schedule for the approach repair works has shifted. Repairs at **Owen Bay** took longer than anticipated and are now expected to be completed this week. Additionally, the start of approach repairs at **Surge Narrows** has been adjusted and is now anticipated to begin on **Feb 23, 2026**.

**Vessel Management During Float Replacement**

The SRD has received questions from the community regarding vessel management during the upcoming float replacement, which is still anticipated to occur **in late February through March**. Updated dates will be shared as soon as they become available.

Residents are **strongly encouraged to arrange for their vessels to be removed from the float** prior to the day work is scheduled to begin.

To maintain mooring capacity during the transition, Pacific Industrial Marine (PIM) will remove the piles and temporarily anchor the existing float to their barge. Keeping the float clear of vessels will help streamline this work and allow vessel owners to safely manage their own property.

Once the float is anchored to the barge, residents who have **no alternative mooring options** may moor their vessels to the float during the construction period.

Please note that **there will be no land (terrestrial) access to the existing float** while it is anchored to the barge. The contractor will ensure that **emergency access can be accommodated** if required. For all non-emergency needs, residents will need to access their vessels **from the water**.

**Revised Construction Activities**

**Owen Bay**

- Decking and test piles: **January 6–14**
- Float installation: **After February 20** (exact date to be confirmed)

**Surge Narrows**

- Approach works, demolition, and test piles: anticipated **February 23–27** (exact dates to be confirmed)
- Float installation: **After February 20** (exact date to be confirmed)

**Port Neville**

- Approach works: **Complete**
- Float installation: **After February 20** (exact date to be confirmed)

Float installations will be completed sequentially following float delivery, with the most likely order being Surge Narrows, Owen Bay, and then Port Neville.

We appreciate your patience and understanding as we work through scheduling adjustments and continue delivering these important wharf improvements. Further updates will be provided if timelines change.

**Project Inquiries:**

**Sheena Fisher** Manager of Strategic Initiatives sfisher@srd.ca 250-830-6711

***Note: To keep up with timeline shifts for this project, check periodically online at srd.ca/area-c-tc-dw***

# SNCA Board Shorts February 2026

There was a relatively slow, ie. 'easy', start to 2026 for SNCA, with relatively little happening over the holiday season. Highlights from our 1st meeting of the new year (minutes on the SNCA website) include:

**Recognizing Contributions to SNCA**
We expressed recognition and appreciation for contributions to SNCA programmes, including DIEM and general purpose operations, from the St. Louis Community Foundation and Coast Mountain Expeditions, to both, via Ralph and Lannie Keller. The board appreciates their generous support, both financially and in their efforts to support SNCA's mission and our community.

**Youth Education Centre Update**
Given that the ongoing negotiations together with our partners Wilderness International and Homalco First Nation on the acquisition of various woodlots and private land for both conservation and community development are nearing completion, work on the planned Youth Education Centre has been temporarily set aside until the agreements for purchase are concluded. Preliminary concept design for the centre's buildings and services has been drafted, however, and once all partners are on board, costing and fundraising will re-commence.

**Dock Repairs and Replacements**
A new schedule of construction for dock repairs and replacements at Owen Bay and Surge Narrows has been released by SRD and dock use will be difficult (or occasionally impossible!) at certain periods until the new dock floats are in place. Patience and respect throughout this temporary challenge is urged, with luck it will be done and over with as planned. See most up to date schedule here.

**New SNCA Generator Coming Soon**
Finally, given the unpredictability of the current bunkhouse generator over the past couple of years, SNCA has set aside budget to purchase a new generator, we expect delivery and set up in the coming week or two! Once it's been repaired and reliably operational, the old one will be our back-up ensuring the bunkhouse energy system is functional at all times.

# Surge Revitalization Update - February 2026

SRD have recently updated their website to include an updated timeline, updated "What's Been Completed" and "Next Steps", and detailed design drawings for the marine structures.

**The timeline now is as follows:**

- Fall 2023 – Fall 2025: Assessments, Permitting and Preliminary Design
- Summer 2025 – Fall 2026: Detailed Design and Tendering
- Winter 2025 – Fall 2026: Preliminary Land Development and Site Servicing
- Fall 2026 – Fall 2027: Wharf and Building Construction
- November 2027: Project Completed

**The following items have been completed:**

- Project studies, assessments and preliminary design
- Detailed design of the wharf
- Schematic design of the building
- Groundwater well installation and water yield testing. The well testing report has been completed and concludes there is sufficient long-term water yield to service the building, based on the proposed two washrooms and other ancillary use in the building. The water quality is very good, no tested parameters exceeded health-based guidelines.
- Water lot (tenure) area expansion to accommodate new dock
- Preliminary clean up and clearing on the upland property
- Cleanup of the seafloor in the water lot

**Next steps include the following:**

- Submitting a groundwater license application to the province
- Marine facility plans have been submitted to DFO for review and will be submitted to Transport Canada this week**.**

  **Marine Facility Plans: Detailed-Wharf-Design-2025.09.22**

- A tender for wharf construction is expected to be posted late March or April of 2026.
- Detailed design of the building is expected to commence January – March of 2026. Permitting and the construction tender for the building will follow in the summer/fall of 2026.
- SRD are also planning some more demolition steps - the existing derelict marine structures will be partially removed during the upgrade to the existing Surge Narrows wharf this winter. Pacific Industrial Marine has been retained to remove the remnant mooring piles, and the walkway connecting the existing wharf to the store building. Demolition of the store building and remaining wharf will be included in the tender documents for the marine facility.

# Official Community Plan (OCP) Update – February 2026

**Over the next few months, planners at SRD will be coming to Surge to hear our thoughts on several topics that will form the basis for our new Official Community Plan.** As a community, we will probably be aligned on some of the topics they wish to discuss with us (for example, fish farms, industrial areas, a ferry, etc.), while views on other topics such as housing and settlement may be more varied.

**Those of us who have been working on the OCP believe that we must speak as one voice to SRD.** Given this, and the fact that at this time of year it is difficult for all residents to attend meetings, we propose to take a series of steps prior to meeting with SRD:

- **We will design a series of short, on-line surveys** to send to all residents. Each survey will be only three or four questions – and will be solely focussed on the topics for the upcoming SRD meeting.
- Residents will be asked to complete the survey within a few days of receipt.
- The survey results will be compiled and distributed to residents. We will then meet in-person and on-line, to review the results and endeavour to reach a community consensus on the topic prior to the relevant meeting with SRD.

**The purpose of this note is to alert you to the upcoming surveys and meetings and to urge you to check your inbox, mark your calendars and have a voice in the future of our community.** Dates for the surveys and subsequent meetings are as follows:

| Topic | Survey Sent Date | Survey Closed Date | Community Meeting on Topic | SRD Meeting on Topic |
|---|---|---|---|---|
| Housing and settlement. Energy, water supply, sewage | Feb 9 | Feb 15 | Feb 18 | Tuesday March 3 |
| Foreshore (aquaculture, moorage, access, industry, etc). Environmentally sensitive areas, trails, wildlife, Parks | Mar 9 | Mar 15 | Mar 18 | Thursday Apr 2 |
| Local economy, tourism, light industry, commercial, home occupations, | Apr 6 | Apr 12 | Apr 15 | Thursday May 7 |
| Services, transportation, docks, communications, waste management | May 11 | May 17 | May 20 | Wednesday June 3 |
| Forestry\Natural Resources, Industry. | Jun 15 | Jun 21 | Jun 24 | Wednesday July 8 |

- *Judith and the OCP Committee*

**Changing AQ-3 Zoning back to AC-2 Following Fish Farm Removal in the Discovery Islands**

Following the recent Federal Court of Appeal dismissal of MOWI's case to reverse the removal of fish farms in the Discovery Islands, Jim Abram wanted to pass on the following recommendation to the community: *"We need to remove all reference to fin fish aquaculture in both our OCP and Bylaw. No farms will be allowed in any of the Quadra OCP nor Bylaw 1460 area by Federal law. So we must not have any mention of it in our documents. It no longer applies so we need to get it right out of those documents. Shellfish will remain. All AQ-3 zoned areas must revert to the original zoning which was AC-2. That was the original intent of the Shoreline Zoning Bylaw agreed to by the CSRD/SRD. This should be made clear to the public in the upcoming OCP meetings. Fin fish farms are no longer acknowledged as a vision nor a regulated zone in all of the Discovery Islands (Area C)".*

# Fire Safety Team Update – February 2026

Although it is still winter, our thoughts are already turning to the upcoming fire season. The Fire Safety Team has been busy taking care of equipment and planning for future events.

In the fall, Jay and the Fire Safety Team serviced and winterized all community pumps (SRD dock pumps and SNCA pumps at the Bunkhouse and Lamberts Beach). Prior to the start of fire season, they will test these pumps again and ensure they are ready to be used at a moment's notice.

On January 28th Kate McLean and Tor Ellingsen, Quadra residents and professionals in the wildfire mitigation business, will conduct a comprehensive FireSmart assessment for all our community buildings. This work is being funded by the School Board. We are aware that much work will need to be done. Once we have Kate and Tor's report, we will start the process of costing out this work, determining what the School Board will assist with and help fund, and what can be done by community volunteers and/or funded by SNCA. Our goal is to ensure all community buildings are fully FireSmarted prior to the conclusion of burn season.

Kate has also offered to assist us with our training again this year. She will be holding a one-day refresher course (S100A) for those of us that took S100, Basic Fire Suppression and Safety, a couple years ago. We are still sorting out dates and will let you know when the day is confirmed. If you have not taken this 2-day course, but are interested in doing so, please contact Jim at jmallis@telus.net. We highly recommend taking this full course. Those of us who have participated found it educational and exceptionally helpful.

*- The Fire Safety Team*

## BC Services Card App Info from Dood

In an emergency situation, if your household is impacted ESS is able to provide various services such as money for accommodation, meals and groceries. This help can be given as vouchers, but in this case the money must be spent at a specific location within 3 days of the voucher being issued usually in Campbell River. If you have the BC Services Card App then this monetary help can be deposited directly to your bank account for you to spend in your own time and in ways that are meaningful to your household.

I recommend that as many people get this app as possible. You need a cell phone, tablet or iPad to install it on. It also provides secure access to online services from the British Columbia government, such as the Canada Revenue Agency or ICBC, and allows you to use your mobile device to verify your identity instead of a username and password. It can also serve as a government-issued photo ID for some services. If you don't have a device to download the app, you can get a fob from the BC Services office that also allows you to access these services.

## Tiny Home Retreats

Do you have visitors coming for an extended stay and need some extra space? Consider offering them a unique stay in a custom built tiny home!

Fully set up with power, propane stove, fridge, hot shower, running water and internet (if desired), the tiny home is built from locally milled lumber and is located on the south end of Read Island. From the tiny home, it is a 30 min walk to Read Island Provincial Park and a 10 min walk to the ocean (Burdwood Bay).

Get in touch with us if you want more information!

Congratulations to local Grade 12 Students Jasmine and Salix Webb on completing their 3rd and final semester at the Cortes Island Academy. Dylan Harvey finished up his Grade 11 semester. Families and friends celebrated them at an end-of-the-year showcase event where the kids showed off the podcasts, essays, art, pottery, and performance skills they'd honed at the CIA. What an impressive group of talented youth!
