Surge Currents

S.N.C.A. Volume 237 October 2026

October 2026 Events Schedule

Reminder: *Check* ***snca.ca*** *for the most up-to-date calendar, and keep an eye on the Surge FB page and Community Notices emails for pop-up events!*

- **Friday October 2nd** — **Community Lunch:** 12:00 pm
  Community Resiliency Workshop: 1:00 - 3:00 pm
- **Saturday October 3rd** — **Emergency Preparedness and Resiliency Workshop:** 10:00 am - 4:00 pm
- **Wednesday October 7th** — **New Babies Welcome Gathering:** 1:00 - 3:00 pm
- **Friday October 9th** — **Grocery Delivery**
- **Saturday Oct 10th** — **SRD Election + Referendum:** 10:30 am - 4:30 pm
- **Wednesday October 14th** — **Coffeehouse:** 1:00 - 3:00 pm
- **Wednesday October 21st** — **Community Lunch:** 12:00 pm
  OCP Meeting: 1:00 - 3:00 pm
- **Friday October 23rd** — **Grocery Delivery**
- **Saturday October 24th** — **Provincial Election**
  Wilderness International Event

Surge Narrows Weather Station

Note: Filmmaker Morgan Tams staying (upstairs) in Bunkhouse Oct 12 - Oct 23 – events going on as usual
Note: Timberline Outdoor Ed Class staying in Bunkhouse Oct 26 - 30 – no Bunkhouse access at that time

Bunkhouse Coordinator Report

September in the Bunkhouse

Jim and I repainted the Bunkhouse floor, which was a big job with all the sanding, etc! Thanks to Jim for helping with this, and also to Renate, Pauline and Rand, who helped get the paint to Surge.

We held a wonderful gathering to celebrate Dr. Hughes recently. Thanks to Hanneke and Sally for organizing the event, as well as the folks who helped set up and clean up.

There was a full house for the SNCA AGM, very nice to see the building full! Thanks to dood, Maya, and Al who helped me out in the kitchen.

October Bunkhouse Plans

On Friday October 2nd, there will be a Community Lunch at noon, followed by Community Resiliency Workshop from 1-3, and the next day, on Saturday October 3rd, there will be an Emergency Preparedness Workshop (running an Emergency Reception Center) from 10 - 4.

On Wednesday October 7th, we will host a gathering to welcome the latest round of Surge babies! *Please only come if you feel perfectly healthy and have not recently been around sick people!*

The SRD Election, including a referendum, will be held on Saturday October 10, 10-4:30. See later in Current for more details!

From October 12th to 23rd, filmmaker Morgan Tams will be staying at the Bunkhouse whilst volunteering at the School. He will be staying upstairs and is fine with us using the downstairs while he's there.

There will be a Coffeehouse on Wednesday October 14th from 1-3, and on Wednesday October 21st, there will be a Community Lunch at noon, followed by an OCP Meeting from 1-3 to review content for the bylaw.

On Saturday October 24, there will be both a Provincial Election and a Wilderness International event. Keep your eyes open for updates about times and locations for both events.

From Monday October 26 - 30, we host the annual visit from Timberline Outdoor Education class. *Note that there will be no access to Bunkhouse during this time!*

Please let me know if you have ideas for events or want to book the Bunkhouse for an event this Fall or Winter.

- Sheila, Bunkhouse Coordinator

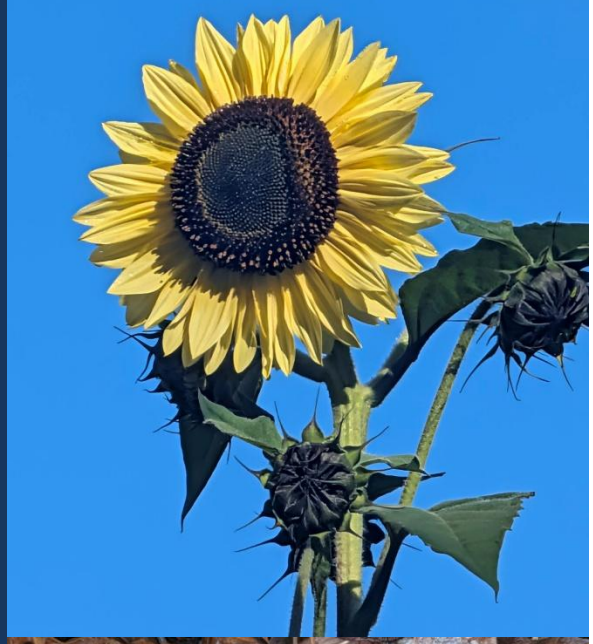
Photos by Kim Barnes



Thank you, Dr. Hughes!

Dr. Hughes' last visit to the Read Island Medical Clinic took place on Wednesday, 23rd of September. He is retiring. The Bunkhouse was crowded with those who came to say goodbye. His farewell was marked by tea and cake and the presentation of gifts and cards. Dr. 'Steve' was and always will be well regarded. He provided exceptional medical care to our community, coming to Read Island almost every month over the last seven years. He will be missed. Those of us who were his patients are very sorry to see him go but, of course, we wish him and his family all the best in his retirement.

- Sally

Dr. Hughes photos by Hanneke Wilson

Note from the Postmaster

We have recently been reminded by one of the pilots that if it is a windy day, he won't be able to deliver our mail if somebody is docked on the north side of the airplane dock.

The tourists buy most of the cards, tea towels and T-shirts. The tourists have boosted our PO sales by 75% in the last year, which helps to keep our PO open.

SRD has now allowed the airplane dock to be used for unloading and loading if the plane isn't in, coming or leaving the airplane dock. If you have concerns about the use of the airplane dock, you can phone or email SRD.

Thanks for helping to keep our airplane dock clear so we can get our mail.

- Donna Keeling, Postmaster, Surge Narrows

SNCA Board Shorts – October 2026

As the Annual SNCA AGM only just occurred on September 26th, the new board is just getting adjusted and hasn't had a chance to write the usual Board Shorts for this month. We will hear from them in November!

FOUND: Empty gas containers tossed in the bushes near the parking area at Hoskyn Channel Landing.

Fire Safety Team Update – October 2026

With a huge sigh of relief, we're happy to report that another wildfire season appears to have passed. With just a few fires that were rapidly dealt with, we had no major incidents this season. Thank you to everyone for being careful and well-prepared.

Following the most recent fire on North Rendezvous, it came to our attention that while the group messaging app worked well, Messenger might not be the best platform to use. The recent survey bears this out, with a number of people indicating they will not go on Messenger due to its connection to Facebook. WhatsApp appears to be a better option.

However, Signal was also suggested as a non-Meta alternative, and the most current survey seeks to determine whether we should use WhatsApp or Signal or stick with Messenger. You can access this survey through this link: https://www.surveymonkey.com/r/LQK5BYM
It will remain open until Monday October 5th.

Finally, just a reminder that if you haven't done so already, now is the time to clean your chimney. Estimates suggest that roughly 5% of home fires stem from creosote-clogged chimneys. This is totally preventable by spending a short time cleaning your chimney(s).

– The Fire Safety Team

ESS Update – October 2026

Thankfully it's been a quiet summer so far locally on the wildfire front - the Fire Safety Team have done a great job of improving our preparedness. Big shout out to them for dealing with the structure fire on Rendezvous Island, which is not part of their mission.

Personally, I've been thankful for the regular rainfall decreasing the overall risk of wildfire. We are in the process of deploying signage to campsites after an incident at the Penn islands - if you have a suggestion for a sign location, please contact me. We currently have installed them at Freedom Point and Lamberts Beach - I'd like to have a list of places to get the signs up in May next year.

Upcoming: A Community Resilience Meeting, open to the whole community, will be held at the Bunkhouse on Friday October 2. There will be lunch for participants at noon, followed by a meeting from 1 - 3 pm. We will have an informal discussion followed by information regarding post fire inspections from the Office of the Fire Commissioner. We will also explore what role ESS might have played to help if the Rendezvous incident had turned into a wildfire.

There will be several SRD folks here for the workshop, including at least one who is able to make FireSmart Assessments**. If you would like to have your place assessed, please reach out to the SRD & it can happen on Oct 2nd or 3rd.** The first step in being able to apply for a FireSmart grant (see poster in the Current) is to have an actual assessment. Here is a link: https://firesmartbcplatform.ca/request-home-inspection

🙏dood

Upcoming SRD Election

A Note from Judith on Context:

"People should know there's a good reason to come out and vote, even though our Director was acclaimed and we don't have to worry about a swim & skate tax. ***Say yes, we can ask for more in the future, say no and that will be the last time it's offered.*** *The wood chipping service, if we vote for it, would enable funding for more than just the chipping. I'm afraid some people might have missed other projects that it can enable, as described in Robyn's post."*

Excerpt from Robyn's Website

Woodchipping & Climate Resilience Service

For a few years, woodchipping was provided through the SRD, funded by a provincial grant aimed at improving our wildfire resilience. You may recall stacks of branches and woody debris on roadsides, or the frustration that due to the limitations of the grant, woodchips could not be returned to the property.

The proposed woodchipping service would improve this. Ongoing funding would provide consistency of access, build community wildfire resilience, and permit folks to keep the resulting woodchips if desired.

When the woodchipping initiative was no longer available, I heard from many folks that it had been an important community safety initiative, and people wondered how it could be brought back. Since then, Director Vonesch of Cortes Island and myself have worked toward this shared service, which would benefit both electoral areas.

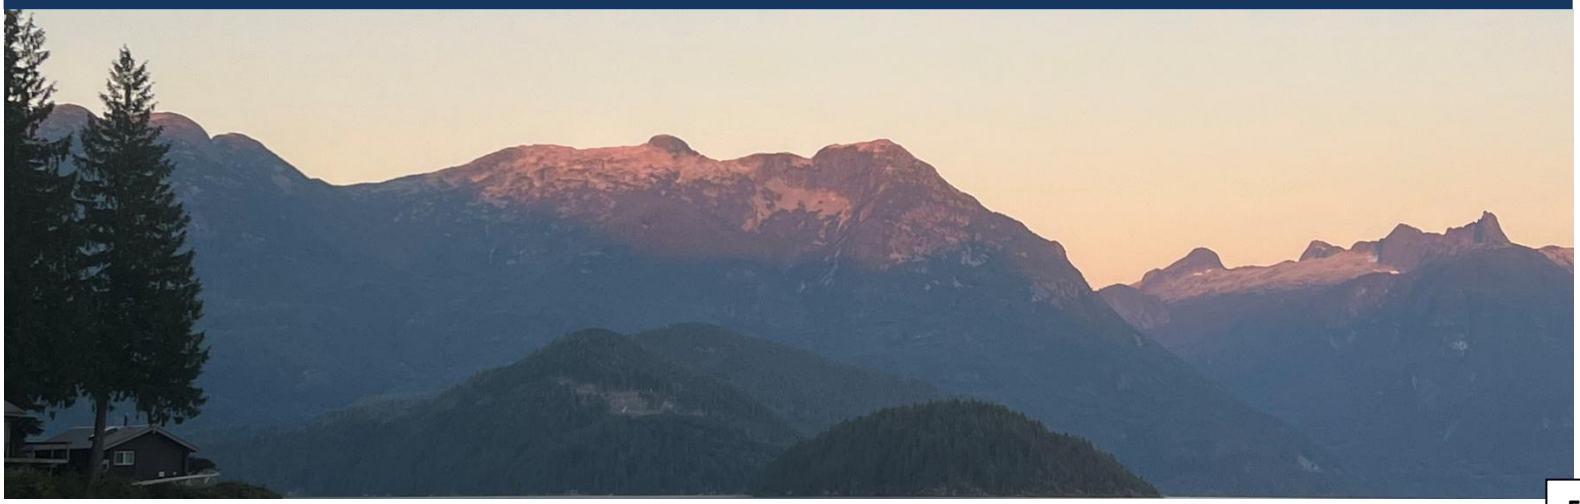
The question & the cost

The ballot question asks if you are in favour of Bylaw 627, which would establish a woodchipping and climate resilience service in Areas B & C, with the maximum requisition of $0.059 per $1,000 of property assessments within the participating areas. If the maximum were requisitioned, this would cost approximately $39 for the average residential property.

Additional benefits

Along with building community climate resilience through woodchipping and other initiatives, creating this service provides an opportunity for the SRD to apply for related grants, build climate resilience, and bring resilience investment into our communities.

The Discovery Islands are rich in natural assets. Natural asset management, such as mapping & treating ecosystems & aquifers as core infrastructure, is another area of work which could be undertaken through the Woodchipping and Climate Resilience Service.



More SRD Election Information

From Robyn's FB

‼️ ➞ GET YOUR VOTE ON: there are two referendum/assent vote questions on the ballot for Quadra Island; one for all of Area C.

☑️ FINAL VOTING DAY: October 17, 8am to 8pm. Quadra voting locations: Quadra Elementary School & Quadra Golf Course.

☑️ ADVANCE VOTE at the SRD office, October 7 & 15, 8am-8pm. Details here: https://www.srd.ca/government/legislative-resources/local-elections-voting#voting-opportunities

☑️ SPECIAL BALLOT: October 10 at Surge Narrows Bunkhouse, Read Island, 10:30am to 4:30pm.

☑️ VOTE BY MAIL: submit a signed application form by mail, in person, or by email to elections@srd.ca by October 7. Learn more about Mail Ballot Voting here: https://www.srd.ca/media/file/mail-ballot-faq-v3

❔ My September 11 Director's Report has more info about the questions:

BC Wildfire Fall forecast

Late summer rains have helped dampen fire behaviour in early fall 2026 and contributed to drought recovery on the South Coast and Vancouver Island. However, the month of August was warmer and drier-than-normal across the Central and Southern Interior and the far northeast. In areas of B.C. experiencing drought, rainfall amounts are 40 to 60 mm below the average accumulated rainfall for this time of year.

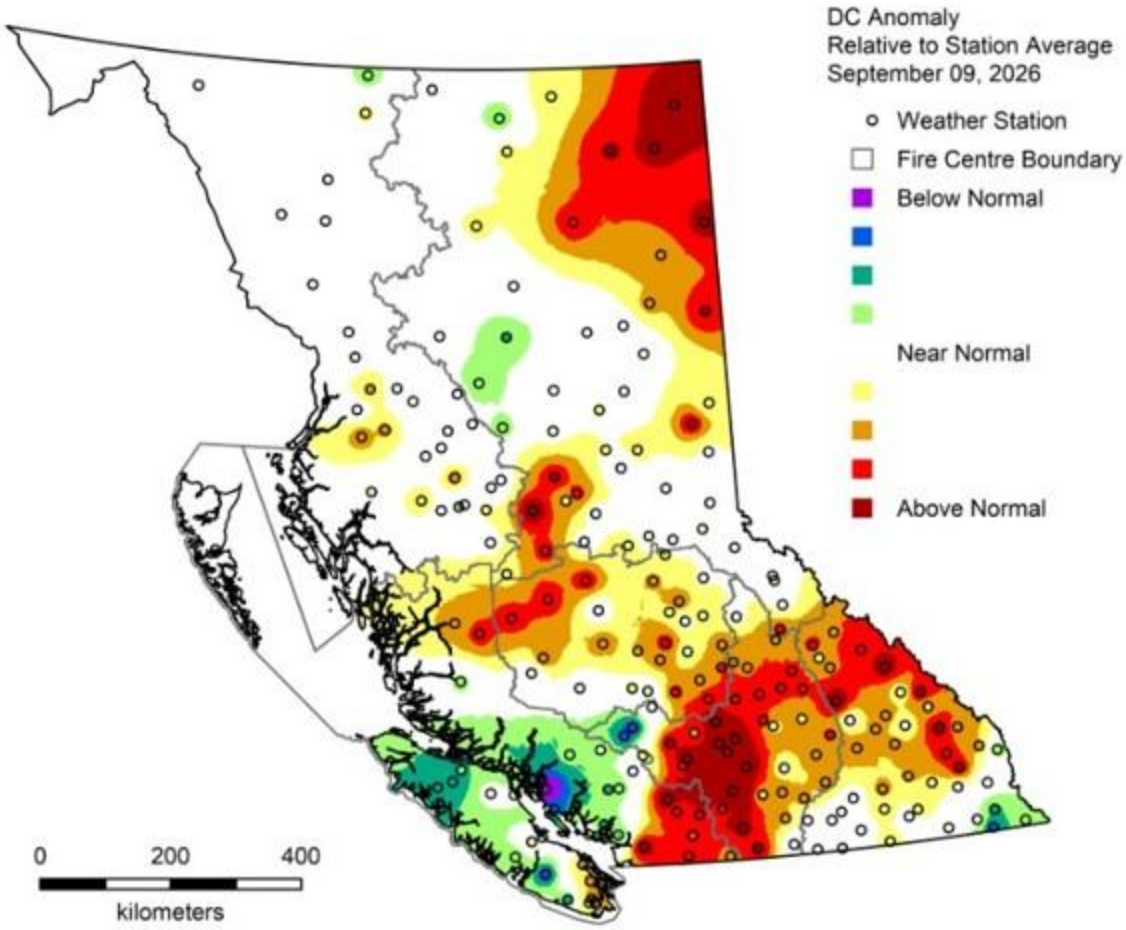

Figure 3: The Drought Code anomaly for Sept. 9 shows regions experiencing above normal drought in deep organic layers of the forest floor and large dead woody debris heading into fall and winter.

Above-average temperatures and drier-than-normal conditions are probable through September for northern B.C., the South Coast and parts of the Interior. Drought conditions also remain above average in the Kootenay, Thompson, Okanagan, Cariboo and northeast regions of B.C. Although the conditions may allow fires to start more easily than in other recent fall seasons, the fire behaviour will not be as elevated as in summer months.

With an El Niño event intensifying, temperatures in the northern Pacific Ocean are forecast to be two to five degrees warmer than average moving into the fall and winter. El Niño is the warm phase of the El Niño-Southern Oscillation, a weather pattern resulting from changes in ocean temperature in the equatorial waters of the Pacific Ocean. While El Niño does not appear to have an effect on temperature patterns during the summer fire season in B.C., in late fall and winter it could bring warm and dry weather to the Interior, more precipitation for coastal regions and lower winter snowpacks.

Long-range guidance indicates that B.C. will see a warmer-than-normal fall with below normal precipitation, a low winter snowpack in interior regions and low likelihood that regions experiencing above normal drought this fall will recover ahead of the 2027 fire season. Coastal regions may fare better, with more overwinter precipitation.

Snowpack is one means of forecasting an early or late start to the fire season. A healthy snowpack covers forest fuels, especially in the high alpine and at ridgetop where lightning tends to strike. When snowpack melts, it helps elevate moisture in forest fuels. Low snowpack and underlying drought are a concern for the spring and summer of 2027. However, it remains to be seen how other relevant weather factors that help determine the severity of the fire season, namely precipitation levels and drying patterns into summer months, will materialize.

Summary

While the shift into a fall weather pattern has helped dampen wildfire starts and activity on currently burning wildfires, pre-existing drought and warm, dry weather could contribute to increased fire activity later this fall. With El Niño intensifying over the winter, coastal regions may see more precipitation while interior regions could see warm, dry conditions and a low winter snowpack as well as a low likelihood that regions experiencing drought will recover ahead of the 2027 fire season.

The camp fire & burn pile ban has now been lifted for the coast - category 2 & 3 fires are permitted again. Please take extra care as conditions are somewhat borderline in our area.

QUADRA WASTE SOLUTIONS

Thank you for your interest in our new domestic waste removal service!

Operating Mondays (Excluding Statutory Holidays) 9am till 2pm

Accepting Bagged Domestic Waste Only

$15.00 per bag

To accommodate the greatest number of residents,
a ONE BAG LIMIT is in effect

(You unload from your vehicle onto tailgate of Quadra Waste Solutions truck)

Hassle-Free Waste Removal Service in Three Easy Steps

Step One: **Email Quadra Waste Solutions to request a Drop-Off Number for service that week. Please provide your road address - to maximize access by appropriate residents as much as possible.**

PLEASE MAKE NOTE OF YOUR DROP-OFF NUMBER!

Step Two: **Upon receipt of your Drop-Off Number, send your e-transfer to: quadrawastesolutions@gmail.com**

Step Three: **Between 9am and 2pm deliver your bagged domestic waste (You WILL be asked your Drop-Off Number upon Drop Off)**

Location: **Quadra Island Recycling Depot Industrial Way and West Road**
